GAGE'S POLICY.

No Purely Political Appointments to Be Made.

Chicago, Jan. 29.—Lynan J. Gage, who has accepted the offer of the secretaryship in President-elect McKinley's cabinet, arrived from Chicago today. When asked what his course would be as secretary of the treasury, Mr. Gage said: "It will be my chief aim to see that the United States is given a business-like administration so far as the duties that devolve upon the secretary of the treasury are concerned. My appointments will be with regard to merit and not political obligations."

Mr. Gage was busy all day putting his personal affairs in shape for the severance of his connection with the First National Bank. Vice President Nickerson, it is said, will succeed him as president of that institution.

WARMER WEATHER.

Belief That the Cold Wave is Broken Up.

Washington, Jan. 29.—Zero weather was predicted for this vicinity early this morning, but the minimum was 32 degrees above and the sun shined brightly from a clear sky. The indications are that the backbone of the cold wave is broken and that for several days at least there will be a steady rise in temperature in the South and Middle Atlantic states.

Chattanooga, Tenn., Jan. 29.—The thermometer registered 6 degrees above zero at 6 o'clock this morning. Considerable floating ice is visible in the Tennessee river.

CALL TO ENGLAND.

St. John, N. F., Jan. 29.—Governor Murray has been summoned to England on important business. It is said that his mission is connected with the fortifying of St. Johns.

AFTER THE THREE FRIENDS.

Washington, Jan. 29.—The attorney general today applied to the United States supreme court for a writ of certiorari to begin an action against the

Senator Miller Prepares a Resolution on the Iron Roads' Extortion.

Railway Commission Asked to Explain Why the Rates Are Excessive.

Laybourn Ready to Support an Equitable Bill Regulating the Rates.

Interest of Other Members of the Senate and House Aroused.

DEEP WATERWAYS.

Senator Davis Wants a Surveying Appropriation.

Washington, Jan. 29.—Senator Davis today gave notice of amendment to the sundry civil appropriation bill appropriating \$50,000 for the surveying and examination of deep waterways between the great lakes and the Atlantic, in accordance with the plans indicated by the report of the deep waterway commission recently transmitted to congress.

SECRETARY OF WAR.

Gen. Alger Has Accepted the War Portfolio.

Canton, O., Jan. 29.—Gen. Russell A. Alger, of Michigan, accompanied by Judge Thompson, of Portsmouth, Ohio, arrived on the Valley train from Cleveland this afternoon. They were met at the depot by the McKinley carriage and driven directly to the McKinley residence at 130, where they are now in conference with the senator. It is believed Gen. Alger will be the next secretary of war.

THE RED LAKE PINE.

Estimating to Be Done Under Baldwin's Direction.

Washington, Jan. 29.—(Special to The Herald.)—Maj. Baldwin, Chippewa Indian commissioner, has had several interviews with Secretary Francis and Commissioners Browning and Lathrop. As a result of the interviews, the plan of estimating the pine lands on the Red Lake reservation, and the present rates of sale, will be re-examined, but it is expected that the secretary will decide this in a short time. Maj. Baldwin will probably be in Washington for some time.

TO SUCCEED WEYER.

Gen. Azcarraga Slated For That Distinction.

London, Jan. 29.—A dispatch from Madrid says that Gen. Azcarraga, the Spanish minister for war, will, according to report, soon be appointed governor of Cuba in succession of Weyer, who, however, will retain command of the military forces of Spain on the island.

FIGHTING MAD.

Dan Stuart Will Move to Nevada Permanently.

San Francisco, Jan. 2.—The passage by the Nevada senate of the bill licensing prize fighting, has given great joy to local sports, and already they have in prospect battles between noted pugilists of all classes. It is contended that the imposition of \$5000 on every fight will have a tendency to discourage dishonest men from going into the business of bringing out contests, and that square fights will be assured. It is asserted that Dan Stuart will make his permanent headquarters in Nevada. He will from time to time arrange contests between the most noted pugilists of the country.

THE SENATE.

St. Paul, Jan. 29.—(Special to The Herald.)—Among the new senate bills are the following:—

Hodges, requiring county auditors to appoint money from liquor licenses among the school districts that have been given not less than five months in the year.

Patterson, relating to board of investment and sale of securities.

Sheehan, authorizing city councils to

Irish Affairs Are Quite Prominent in the Public Eye at Present.

France Has a Scheme For Increasing Its Diminishing Population.

Gossip About Royalty, Prominent People and the Theaters.

London, Jan. 30.—(Copyright 1897, by the Associated Press.)—Irish affairs continue in the fore front. The split in the Irish parliamentary party will be complete next week when the so-called "east front" members of Edward Blake, member for the south division of Londonderry, adopted on Tuesday last at a meeting of the Irish parliamentary party, not being signed by the Healyites, that will be considered as expelled from the party. The adoption of Mr. Blake's resolution was that every member of the party should sign a declaration that he did not undertake before election to maintain himself in parliament without indemnity from the party, that he would not accept indemnity from any other person, and that he would not accept indemnity from any other person, and that he would not accept indemnity from any other person.

The national alliance for the increase of the population of France founded by Dr. Bertillon, director of the municipal statistic department of Paris, in view of the large decrease of the population of France, as shown by a recently published census, is discussing a curative proposal from M. Melme, the promoter, with the view of encouraging parents to increase their families. The plan proposes that government scholarship in schools be awarded to the child only if he is the child of a family with not less than three living children and that all government positions or favors requiring special qualifications or favors like tobacco licenses, concessions in the colonies, etc., shall be given only to those who have three or more children, and that promotions and allowances be regulated according to the number of children. The committee is meeting with serious consideration.

Dr. Bertillon, early during the present month said that the reduction of the census is simply appalling and that unless a miraculous change for the better takes place, France will pass the position of a great nation. Germany in 1871, it appears, had about the same population as France, but in 1896 it had increased by 14,000,000 of inhabitants more than France. Then again, during the last five years the population of Germany has increased by 2,000,000. While that of France in the same period has only increased about 500,000. It is shown that in 1873 the number of young men on the lists for military service was about the same in Germany and France, whereas today the number of German conscripts is 450,000 while the French conscripts only number 330,000.

Mrs. and Mr. Nansen are expected to reach London, Feb. 3, and at Queensborough they will be met by Scott Kettle, secretary of the Royal Geographical Society. On arriving in town Dr. Nansen will proceed to Sir George Baden-Powell's residence where the explorer and his wife will stay as guests during their visit to London. They will be lavishly entertained.

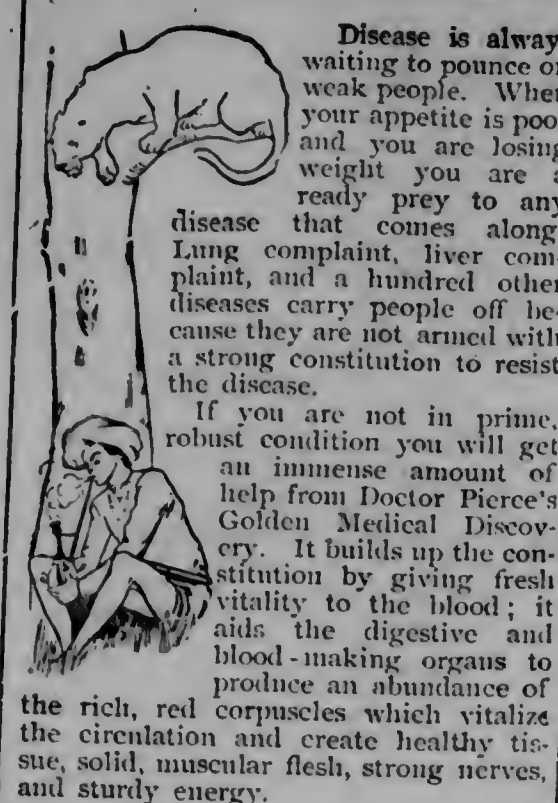

The latest thing in entertaining is a children's party. The originator was Mrs. Duncombe, the daughter of Mrs. Archibald Stuart-Wortley, and for a while was among Mrs. Duncombe's guests and showed the keenest interest while the grilling of his outfit was in the dining room. The occasion into a grill room where the chef dismissed fillets and cutlets cooked on silver grills to a gathering of smart people.

It cost the government over \$400,000 to prosecute Edward J. Ivory, of New York, recently acquitted of the charge of conspiring to cause a dynamite explosion. Scotland Yard's cost alone to obtain the alleged evidence in the United States.

The death is announced of Mrs. M. S. M. a prominent woman's rights advocate and president of the Pioneer First Lady's club, of London.

In spite of official denials it is becoming generally known that the condition of the czar's health is critical and that a regency is probable.

The fight on Thursday last at the Olympic club, Birmingham, between Dick Burge, of England, and Edwy Connolly, of St. John, N. B., for a purse of \$2000, was a very close and exciting one. It is probable that the tenth round, it is, however, in the opinion of the American, would have won if the police had not stopped the fight. It is probable that the two men will soon meet again in

Disease is always waiting to pounce on weak people. When your appetite is poor and you are losing weight you are ready prey to any disease that comes along. Lung complaint, liver complaint, and a hundred other diseases carry people off because they are not armed with a strong constitution to resist the disease.

If you are not in prime, robust condition, you will get an immense amount of help from Doctor Pierce's Golden Medical Discovery. It builds up the constitution by giving fresh vitality to the blood; it aids the digested and blood-making organs to produce an abundance of the rich, red corpuscles which vitalize the circulation and create healthy tissue, solid, muscular flesh, strong nerves, and sturdy energy.

Silvester Bergezza, Esq., of Clear Lake, Del Norte Co., Cal., writes: "I was taken sick with a very bad attack of 24 Colic, and my doctor's medicine gave me no relief, and when I set up for five minutes I wanted to lie down again. I was very much discouraged and said I would try Dr. Pierce's Golden Medical Discovery. I took two bottles. When I had taken half a bottle the pain began to leave me, and after two bottles of I felt like a new man, and could eat and sleep as usual. I can fully recommend your medicine, and trust say it will do what it is said to do."

PIERCE'S When the bowels are constipated Doctor Pierce's Pleasant Pellets will set them right in a natural way, gently, mildly, but thoroughly. These little "Pellets" mildly stimulate the liver, and cure biliousness. They are purely vegetable and perfectly harmless. No other pills act so naturally and perfectly.

FRUIT TARIFF.

Great Scheme of California's Citrus Growers.

Los Angeles, Cal., Jan. 30.—In consideration of the fact that congress is to be convened in extra session to enact a tariff law as soon as President Harrison is fairly seated in the presidential chair, the citrus growers of Southern California have started a formal campaign in behalf of California's citrus fruit. A circular address will be issued to all citrus fruit growers, asking them to subscribe to a committee, which will represent the growers from the different districts in California to send two or three able representatives to Washington to secure the prohibition of fruit duties on citrus fruit from Mexico, and a duty on other foreign fruits sufficiently high to place the cost of imported fruit on an equality with California oranges. Nearly 400 signatures have been gotten and great hope of success is sustained.

AWAKENED BY FIRE.

Narrow Escapes at a Chicago Tenement Blaze.

Chicago, Jan. 30.—Twenty-five families, occupants of the Newton apartment building, 328 Columbus avenue, were driven from their beds by fire at 229 this morning. When the fire reached the building it was full of smoke and flames, and many of the occupants were running out into the streets, some of them in their nightgowns. Many of the occupants were so excited that they had to be assisted from the building by the firemen.

During the excitement, Ella McArthur, 11 years old, was forgotten. She was found on the third story by Police Officer McArthur, who carried her to the house of a neighbor. She will recover, by a doctor's treatment. She had been threatened by a fire, and she was very much excited. She was found on the third story by Police Officer McArthur, who carried her to the house of a neighbor. She will recover, by a doctor's treatment. She had been threatened by a fire, and she was very much excited.

A BUSINESS LEAGUE.

Chicago, Jan. 29.—The "National Business League," an organization of business men with regard to politics, has been organized in Chicago and is now active. The following are the officers: President, Ferdinand W. Peck; vice president, Erasmus M. Phelps; treasurer, E. G. Kohn; secretary, C. A. Gilbert; attorney, John W. Egan. The objects of the association are stated to be the advancement of legislation both in cities and in state legislatures. It is understood that the organization will be formed in New York, Pennsylvania, Wisconsin, Minnesota, Iowa and Michigan. The association has a charter membership of about 100.

"SHAKE" WIGGINS DEAD.

Washington, Jan. 30.—W. H. Wiggins, a well-known character of the Washington, was found dead in his room yesterday. He was born in New York in 1840, and had been in the city for many years. He was a public man, and was said to have played with a fine Shakespearean scholar.

JAPAN.

Realm of the Mikado Gives Another Evidence of Great Progress.

Wages in That Empire Have Been More Than Doubled Lately.

A Peculiar Boycott—Pointer For Ambitious American Inventors.

Washington, Jan. 30.—The competition of Japanese cheap labor, which has been much resented by the American workman, is not likely to be a menace if wages in Japan continue to increase in the extraordinary degree they have maintained since the Chinese war. United States Consul Connolly, at Hio, has supplied the state department with tables showing the wages of various classes of labor, more or less skilled, for 1894, '95 and '96, that illustrate this wonderful increase in certain lines. Agricultural laborers, male and female, have had their wages advanced in that period of time from 11 yen per day to 24 yen, weavers from 15 yen to 24 yen, and paper makers from 18 to 40 yen, blacksmiths from 45 to 60 yen, and so on through many kinds of labor.

The Japanese manufacturers also appear to be having their labor troubles, which they are endeavoring to overcome in unique fashion as shown by the objects of the boycott and the boycott of the Japanese. The great activity of their labor, based on news of their country, the Japanese, the cotton spinning industry has led to a demand for labor in excess of the supply. One great mill raised wages and thus released away labor from its competitors. The laborer replied by a boycott of the mill, and the mill owners, in turn, refused to pay the wages. The boycott was so successful that the mill owners were forced to pay the wages. The boycott was so successful that the mill owners were forced to pay the wages.

INVENTORS WARNED.

Patent Your Goods Before Taking Them to Japan.

Washington, Jan. 30.—In answer to repeated inquiries from American manufacturers as to the best method of properly exhibiting their goods at the Osaka commercial museum, and the advantages of making such exhibits, the United States Consul, Connolly, at Hio, Japan, has supplied the state department with a full description of the objects of the museum and indicated the proper manner for American inventors to take advantage of this opportunity of building up a trade in Japan.

A bill which the selection of competent agents by combinations of manufacturers to bring to Japan and exhibit their goods, but he gives warning that all labor-saving machinery and devices should be patented in Japan, before exhibition, to protect them from imitation.

JUDGE TURNER.

Political Career of the New Washington Senator.

Olympia, Wash., Jan. 30.—In the joint assembly Judge Turner received sixty-eight of the eighty-seven votes of the electors, and was elected to the senate. The election of Turner reflects the opinion of the electors that the fusionists, or eleven more than a majority of the entire legislature. Of the nineteen fusionists who refused to vote, the majority of them were Democrats. The election of Turner reflects the opinion of the electors that the fusionists, or eleven more than a majority of the entire legislature. Of the nineteen fusionists who refused to vote, the majority of them were Democrats.

CONDENSED DISPATCHES.

Governor Satter, of Nevada, has signed the bill dissolving glove contests, and now the largest cities of the state are actively engaged for the big fight. The north wing of the Douglas faction, who have represented Washington in the senate since it became a state in 1889.

Senator-elect Turner has been one of the most prominent politicians in Washington for the past ten years. Until the election of 1894, he was a member of the Republican party, but at that time he left the party and supported the fusion ticket. He was elected to the senate in 1894, and has since been a member of the fusion party. He has for many years been an advocate of the free coinage of silver, and has been a strong supporter of the silver cause.

IN THE DAKOTAS.

A bill was introduced in the legislative assembly of Dakota declaring it a misdemeanor for any person to engage in the business of gambling, and providing fines of \$50 to \$500 for violation of the law. Deputy marshals have arrested a farmer, Charles Smith, residing twelve miles from Aneta, for illicit breeding of horses, and the plan in the cellar. A large quantity of beer and malt was found.

Judge Satter is holding a term of court in Graton. The star case was the regular of the case, the case was against Andrew Piss, who was elected by the electors. The case was very interesting, but on the eve of the trial it was dismissed, some agreement to doubt having been made between Skorkowski and Piss. Mr. Piss will retain the case.

The report sent out of the finding of a dead man near Harlem frozen to death during the recent storm was a fake. There were no fatalities with the exception of David Lindberg, who died after the amputation of his feet, which were badly frozen.

AN ARIZONA CONCESSION.

Phoenix, Ariz., Jan. 29.—Bills have been passed by the legislature, in the interest of the Santa Fe railroad, permitting railway corporations to purchase railway property and franchise such purchases and permitting franchises to assume all the rights and franchises of the prior contract lines in other authority to conveyed that the Santa Fe extension to the coast will be built. It is also authorized that the company on the organization of the Atlantic & Pacific following the sale of trust deeds.

DUFFY'S PURE MALT WHISKEY.

FOR MEDICINAL USE.

There's life and health in every drop. Will stop that cough and the general ache that threatens to become grip if not checked. Pamphlet sent by DUFFY MALT WHISKEY CO., ROCHESTER, N. Y.

THE BIG FIGHT.

May Be Supplemented By Another Good Go.

San Francisco, Jan. 30.—William Kenyon Wheelock, the partner of fight-promoter Dan Stuart, is here fresh from the scene of his triumph in Nevada. Wheelock said yesterday that he was confident of a second fight between Stuart and Stuart. He said that he was confident of a second fight between Stuart and Stuart. He said that he was confident of a second fight between Stuart and Stuart.

Wheelock said that in all probability there would be one other contest in the line of the Stuart fight. He said that he was confident of a second fight between Stuart and Stuart. He said that he was confident of a second fight between Stuart and Stuart. He said that he was confident of a second fight between Stuart and Stuart.

Stuart said that he would start within the next three days for Nevada, and as he was possible to make his fight in a town for the battle. When that is done, he will begin work at once on an ambitious campaign to engage 2,000 to 3,000 spectators. He also said he was going to try to add a new feature to the fight, in the shape of a grand wing shot event, to be participated in by the leading wing shots of the country.

VACANT GOVERNMENT JOBS.

Washington, Jan. 30.—The United States civil service commission will hold an examination at Washington, on Feb. 2, to fill a vacancy in the position of special agent in charge of public road inquiry of the department of agriculture, at a salary of \$1800 per annum. The examination will also hold an examination on Feb. 2, to fill a vacancy in the position of special agent in charge of public road inquiry of the department of agriculture, at a salary of \$1800 per annum.

CAPT. SINGER'S PLANS.

Simply Says That He Intends to Do Business.

W. H. Singer, of the Singer tug line, returned yesterday from an Eastern trip. He was seen at his office yesterday afternoon by The Herald.

OLYMPICS WERE WINNERS.

As a result of the debate at the High School yesterday afternoon Hale Horton, of the Adolphus, and Frank Edison, of the Adolphus, and Miss Jessie LaSalle, of the Adolphus, will represent Duluth in the joint debate to be held here by the Minneapolis high school April 15. Ely Gray, Hale Horton, and William L'Estrange supported the affirmative of the question of government ownership of telegraph systems for the Adolphus, and Frank Edison, Jessie LaSalle and Joseph Cook, representing the Olympics, supported the negative. The judges, Dr. Ryan, Rev. F. C. Southworth and John A. Keyes, decided in favor of the negative, though all the contestants made excellent showings.

Ice Boating.

Capt. J. B. Stevens and C. H. Bradley have been offering their big ice yacht preparatory to putting her into commission, and they expected to have her ready today. The yacht is a clipper has been on the ice several days, and is holding her record as the fastest ice yacht in the lake. Capt. J. M. Thompson is a part owner of this boat.

The Spalding Case.

The Spalding indictment case was concluded yesterday afternoon and Judge Moer ordered that no technicalities would bar the case. A serious charge had been made that someone had been paid \$1000 for influence that would be investigated by the proper authorities. Judge Moer said that his

THE NORTHERN GOLD BOOM.

Rat Portage and Rainy Lake papers of late date are full of boom as an egg is of meat. Every column is devoted to the Lake of the Woods and Seine River mining districts, and every paper contains news of big trades, big finds or big developments.

The advertisements in the papers even stock out of glittering inducements, for bids for sinking shafts, and assays, or locators offer their particular kinds of service at reasonable rates. The news columns of the papers indicate that exploring is going on to a large extent in spite of the snow and bad weather. From the Seine River district comes the news that Messrs. Rodd and Nelson have made another rich strike on the Bad Vermilion portage to Little Turtle lake, near the lake, and adjoining a rich property owned by an Australian miner named William decompared quartz of astonishing richness. The correspondent who sends in the item states that it boasts anything he has seen in the whole district.

Another Seine River item is to the effect that the Olive mine, at the west end of Little Turtle lake, is down forty-five feet in one of its shafts, and that rock taken from the bottom of the shaft assays \$800 a ton, free milling, with a further value of \$300 to the ton in the concentrator.

One paper contains a clipping from the London, England, Mining Journal in which the Ontario gold range is vividly and glowingly described and compared to the British Columbia fields greatly to the disadvantage of the latter, as for instance:

"Take, for example, British Columbia; there they are compelled to erect costly smelting works before they are able to separate the gold, and to employ skill of high order, and pay high prices for supplies, transport and labor."

Wheelock said that in all probability there would be one other contest in the line of the Stuart fight. He said that he was confident of a second fight between Stuart and Stuart. He said that he was confident of a second fight between Stuart and Stuart.

Stuart said that he would start within the next three days for Nevada, and as he was possible to make his fight in a town for the battle. When that is done, he will begin work at once on an ambitious campaign to engage 2,000 to 3,000 spectators. He also said he was going to try to add a new feature to the fight, in the shape of a grand wing shot event, to be participated in by the leading wing shots of the country.

Only One!

Not more than five men or women in a thousand are free from some form of Kidney, Liver or Bladder trouble, which is certain to run into serious disease unless checked.

Stop and Think!

that there is but one known remedy for these troubles! Ask any druggist, physician or friend what it is, and he will tell you.

Safe Cure

This great remedy stands ABSOLUTELY "on the top," and is so acknowledged by the most advanced thinkers of the world. This suggestion is all you require!

WEYLER'S SUCCESSOR.

Belief at Washington That He is to Be Removed.

Washington, Jan. 30.—A Madrid dispatch announcing the appointment of Weyler's successor as governor general of Cuba is considered here as absolutely authentic. A week ago Senor De Lome communicated to Secretary Olney that Gen. Azaragoza had been ordered this position, but no definite action had been taken. All American citizens now in prison in Cuba as suspects will, with few exceptions, be given their release some time during the coming week. This information, it is said, has also been conveyed to the state department, which is now endeavoring to get the Spanish government to release the prisoners. The competition crew, it is understood, is in possibility that the amnesty, and there is a possibility that the Spanish government will release the prisoners. The Spanish government will release the prisoners. The Spanish government will release the prisoners.

SAID IN MADRID.

Madrid, Jan. 30.—The Epoca says that words dropped by the minister of war, Gen. Azaragoza, point to the possibility of an arrangement being made with the Spanish government to release the prisoners. The Spanish government will release the prisoners. The Spanish government will release the prisoners.

Gross Brings Suit.

Emil J. Gross yesterday afternoon began suit against the Rouchelau-Ray firm on complaint to set back some land which he alleged had been secured by misrepresentations. Gross was a resident of the land in 35-35, and he sold part of it to the defendant for \$2000, half cash and the rest secured by a mortgage. Later he learned that the defendant had sold the land to a third party, and he brought suit to set back the land. The defendant is J. Q. A. Crosby and W. R. Spencer are the attorneys.

WHOLLY PURE

close to the Administration was closeted with the special correspondent of the *Washington Post*. The two men, who were both in the room, and the waiter was engaged in placing a bottle of whisky on the table. As he withdrew, the man in the suit asked the other, "Well, what is it, old man? Suicide? Kidnapping? What is the trouble?"

The man of infinite wisdom smiled and said, "You're way behind the times," he said. "That's a fair lot of it, but it's not all. The President has just come to Stockholm to interview King Gosta. He has just signed an arbitration bill for the New York Journal."

SPECIAL LEGISLATION.

Boston Transcript: The bill before Congress to prohibit the sale of cigarettes and call for initiation dairy products subject to inspection and labeling of the products when they are transported is a notable example of special legislation. It is a sample of special legislation in the case of dairy products, why not also in respect of cigarettes and intoxicating liquors.

The woman's club is such an important factor in modern civilized life that it is prone to ponder upon this element of which it is composed. It is not so much the old conception of woman's rights and place. No one will deny either that it is not produced

pleasure of the language cannot be
 denied. I am sure that you will
 present agitation, hoping that
 anyone interested in education and
 culture will be able to see the
 language of the accumulations of
 the last few years. It may be distaste-
 ful to many of us to have to acknowl-
 edge that our English sisters use the
 language correctly, but it is true,
 and the choice of words and their
 pronunciation is, alas, sadly at fault. The
 spelling of the language and the
 choice of words are also at fault. In
 my opinion, the language is in a
 state of confusion. It is not possible
 to make philologists write their
 words. But we in America do not even
 know the words of our own
 language. And only when you and I
 put deliberately to do the best we
 can, we can hope to make the
 modern woman, to weigh thoughtfully
 and use correctly every word, will we
 gain the golden speech.

AGATE.

DULUTH EVENING HERALD.

SATURDAY, JANUARY 30, 1897.

FIRE SALE!

The One Cent Store,
109 West Sup. St.

\$18,000

The One Cent Store,
109 West Sup. St.Worth of Tinware, Hardware, Woodenware,
and Willowware, Brushes, Crockery, Lamps, Glassware, Notions, Stationery, Jewelry and Silverware, Leather Goods,
Hand Bags and Valises, Toys, Fancy Baskets and Hampers, etc., etc.,

DAMAGED BY SMOKE AND FIRE!

To be sacrificed at a mere fraction of actual cost. Profits and Gains sink out of sight before the imperative necessity
of clearing the store of damaged goods. Nothing reserved—Undamaged Goods as well as Damaged Goods to be sacri-
ficed regardless of cost.Sale Commences Monday, Feb. 1, And will continue until all damaged
goods are disposed of.The following are but slightly
damaged and are well worth
double the price here quoted.

25c Oil Cloths, in plain white and
fancy Mosaic colors, Fire Sale Price, per yard, only.....**9c**
1 1/4-lb package white wove ruled Note Paper,
worth 25c before fire, Fire Sale Price per package only.....**8c**
25c Ladies' Wool Hose,
Fire Sale Price per pair only.....**11c**
5c Tack Hammers,
Fire Sale Price each only.....**1c**
2-qt Heavy Tin Coffee Pots,
worth 12c before fire; Fire Sale Price each only.....**5c**
Good Shoe Brushes,
worth 10c before fire; Fire Sale Price each only.....**3c**

FIRE SALE!

HISTORIC

Old Dramatic Temple Has
an Interesting Place in
Duluth History.It Was the Pride of the
City When First
Built.John T. Condon Began His
Theatrical Career as
Its Manager.

The fire last Monday afternoon partially destroyed one of the historic edifices of Duluth, which of late years has been doing duty as the rear end of the St. James' hotel. In the village history of the Zenith City the building was known as the "Dramatic Temple," and for a long time it was considered

a very creditable play house for the future metropolis, which was then in the chrysalis period of its development.

After the collapse of the Northern Pacific, in 1872, which was then pushing its way over the prairies its way to the Pacific, the prosperity of Duluth was destroyed, and her people impoverished. Money disappeared from circulation, citizens who were considered in affluent circumstances were reduced to a fish diet, and the city of Duluth went into the hands of a receiver, known as the village of Duluth, which, he it said to its credit, has since liquidated the indebtedness of the corporation to the satisfaction of all creditors, and has returned the property to the new city of Duluth a thousand-fold richer and better than it ever was in the halcyon days of the supremacy of Jay Cooke. Stores for years were vacant, and grass literally grew in the streets. Under circumstances like these it is not often that individuals or firms enjoy prosperity.

But there was one firm in Duluth that was doing so much better than its competitors that its members actually felt rich, and decided to make a stop toward building up the great city that even in those days the loyal citizens were confident would set proudly on the hills overlooking the great lake. Schultz & Burg, saloonkeepers, between Second and Third avenues east, on Superior street, in 1874, were doing a thriving business, and had accumulated considerable money. At that time the only place where a dramatic entertainment could be given was in the old Turner hall, located on the lower side of the street, a block east of the Schultz & Burg saloon. The saloonkeepers believed that Turner hall was not up to even the limited requirements of the time, so they purchased the lot where the Merchants' hotel now

stands and built a larger wooden building, which they christened the "Dramatic Temple."

The building for those days was quite an imposing structure, and was "piled with alarm," as it is now "piled with alarm." It had a frontage on Superior street of about forty feet. In a room, the floor of which was a few steps below the Superior street grade, Schultz & Burg established themselves in a fine saloon and restaurant. At either side of the entrance to their establishment, a short flight of stairs led up to the theater above. The auditorium had a seating capacity of about 400, and a few more could find accommodations in the small gallery that occupied the space over the entrance. The stage was small, and was set with a few pieces of rudely painted scenery. The floor of the main body of the hall was, of course, level, as the room was frequently used for public halls. It was lighted by lamps and heated by large stoves, located near the entrance. Little consideration was shown by the architect of the Temple for the comfort of the actors who were to tread its boards, for the dressing rooms provided were painfully small and few in number.

Traveling companies, even of the harnessed character, were not numerous in those days, and local amateur talent had to supply the people with the major portion of their amusement, except when a political campaign was on, for during those periods, the statesmen at the head of the lake frequently discussed burning issues from the stage of the Temple. In 1879 John T. Condon came to Duluth from Bay City, Mich., and shortly after his arrival he leased the entire Temple building from its owners, who had not prospered in their enterprising venture. Condon conducted the saloon and restaurant in the basement and managed the theater. It was here

that he gained his first experience in the show business, and it proved so attractive that he has followed it ever since, having been manager of Munger & Markell's Opera house, and later of the Masonic Temple. He is now traveling on the road with a dramatic attraction, Condon's management of the house was profitable to him, and he continued it until 1881, when William McArthur purchased the site on which it stood that he might build the Merchants' hotel. The building was sold to E. Beckman, who moved it to its present site, where it continued as the only house for public amusement in Duluth until Munger & Markell's Opera house was opened by Emma Abbott in 1883. It was not until then that the building was cut up into rooms and used for living purposes. As late as that year a stylish and critical Duluth audience had followed the varying fortunes of Little Eva, Ellza, Uncle Tom, Topsy, Lawyer Xarks and the other interesting characters in the old reliable "Uncle Tom's Cabin," and had watched with breathless interest the wild rantings of a bankrupt tragedian delineating the role of Igonmar on the stage of the Dramatic Temple. The things were enjoyed in those days, for it was the class of entertainment to which the people had been educated. The enterprise of Munger & Markell in building the handsome Opera house, that was destroyed by fire eight years ago, removed all demands for the Temple as a place of amusement. Let it be hoped that the fire of last Monday has damaged it sufficiently to make its further use as a rooming house impossible, for it has for years been a constant menace to the lives of those who have occupied it.

Have The Herald in your homes; 4c cents a month.

NEW DULUTH DOINGS.

Fred Yoss, city treasurer, visited this part of the city Tuesday.
Mr. Krumsig, candidate for comptroller, was here Tuesday.
Mrs. F. A. Stewart was visiting at Duluth Wednesday.
C. J. Birch, of West Duluth, made this place a call Tuesday.
Messrs. Mitchell and Cochrane, of West Duluth, visited here Tuesday evening.
Mrs. J. Stevenson was in Duluth Tuesday.
E. T. Melver, of St. Paul, made this place a short visit Wednesday.
Mrs. R. Shaver was shopping in Duluth Thursday.
Rev. J. I. Sanford and Mr. Kingman were among the visitors to Duluth Thursday.
William Gallo, of Woodland Park, made this place a call Wednesday.
Messrs. Tower, Provisinski and Bowser were doing business in the city Thursday.
Miss Kellar, the special writing teacher from Duluth, visited the school Thursday.
Rev. S. A. Jamieson, of West Duluth, was calling on friends here Thursday. He conducted a service at the Presbyterian church in the evening.
Charles Krueger left here Monday for Arizona. His family expect to follow him in the spring.
Refrigerator company shipped a carload of family refrigerators Wednesday to Detroit, Mich.
D. Dumas has gotten out 25,000 cedar this winter for local talent. The employment for quite a number of men.
The people are soon to be treated to a minstrel show by local talent. The program is a good one. Mr. Mahoney is stage manager and the entertainment promises to be an elaborate one.
Rev. J. I. Sanford has resigned his pastorate of the Congregational church. He has made many friends during his stay here who will regret to learn of his resignation. He expects to leave the first of the week.
The cottage midweek meeting of the Congregational church met at 7:30 p. m. Tuesday evening.
A. B. Kalle is expected home from Denver, Col., every day.

TO SAVE DUESTROW.

Searching For Insane Symptoms With X Rays.

St. Louis, Jan. 30.—Efforts continue unabated to save Duestrow, the millionaire murderer, from the gallows. Several X ray photographs have just been taken of him to discover if possible, any malformation that might be construed as producing insanity. The photographs were developed, and the details of the experiment will be produced before the sheriffs, who will pass upon the question of the man's sanity at Union hall, Mo.

The doctor who conducted the experiment has but little hopes that he will serve good photographs. "Duestrow was too nervous," he said, "and would not remain still long enough. Finally he became angry and excited, and declared that he could not stand it any longer. We will try it again when he is in a more favorable condition."

A SHOCKING TRAGEDY.
Goshen, Utah, Jan. 30.—A shocking murder and suicide has taken place here. Bartholomew Race shot and killed his wife while she was sick in bed, and turned the weapon upon himself. Race locked the older children out of the house. His wife pleaded for her life, but the man, who had planned the murder, would not listen to her protests. Nine children remain, the youngest of whom is only four days' old.

TO HOT SPRINGS, ARK.
The Minneapolis & St. Louis railroad is the short line, and only line with dining cars and compartment sleepers. Excursion tickets on sale.

Midwinter is a dull period in the world of fashion, despite the fact that the round of festivity in all the varying degrees between informal dinners and resplendent balls is unceasing at this season of the year; and there is nothing to be done in the eternal pursuit after novelties in dress but to ring the changes on the fleeting fancies of the day, says the New York Sun.

The details of dress seem to be the points most generally under consideration just at this moment, and the display of small finery in ruffles, vests, and neck decorations spread out for inspection in the stores, and the variety in bodice designs and ornamentation, tend to show the importance of this feature of fashion. Besides all sorts of chiffon, and lace, and ribbon neck ruffs, and frills for the wrist, there are various new designs in square and points of linen set on a band and sold by the yard for cuffs and collars. Fine black linen points, edged around with ecru linen hemstitched on, and trimmed with a narrow lace edge, are one novelty, and similar points are made of white linen with the yellow edge. Kilt plaided chiffon formed in points and trimmed on the edge with lace is another trimming which is used to edge tea jackets, and for various other purposes besides as a finish for the neck.

The highly colored embroideries on net, satin, and galon, of different kinds, are a continuous revelation in the art of dress trimmings, and those of steel, jet, and pearl are also strikingly effective. Cashmere colored paillettes on a white satin foundation are a very stylish combination, and light colored velvets, embroidered with gold thread, and used for bands and bolero jackets are another mode of dress decoration

which tends to show the extravagance of the season's fashions.

A PRETTY GOWN. One very pretty gown of black velvet worn at the opera has an entire bodice of closely spangled black mouseline de soie, with three bands of handsome cream lace, slightly jetted down the front and back. A cream lace frill in the spangled collar and a narrow belt of bias black satin are the finish. Mouseline de soie boleros are a pleasing feature of the velvet gown this season, and they are made in light, dainty colors, which afford a pretty contrast. Blue, purple, and green velvet gowns are very much worn for calling and reception gowns, and plum-colored velvet, with a pale yellow chiffon bodice over yellow silk, is charming, with the added short bolero of velvet, edged with a pale yellow chiffon applique. A jacket of the same color and velvet, with a belt of lace down either side of the front of the jacket gives the soft effect which seems to be a necessity this season, and the sleeves, with three frills lined with yellow at the top and wrinkled below to the wrist, which is finished with a frill of lace, are the crowning glory of its costume. Cerise velvet waists and entire dresses of red velvet are not uncommon among evening costumes, and an embroidery of gray pearls and steel beads on the skirt and bodice of crosswise folds is a pretty ornamentation with a bertha of renaisance lace at the neck. Translucent sleeves of the same lace, fitted close to the arm, are sometimes used in preference to the short puff, the bertha of lace giving the full effect over the shoulders.

SOME CALLING GOWNS. Calling gowns of velvet are often trimmed with fur, and most unusual combinations, such as silver fox and mink, sealskin and chinchilla, are seen on one gown. A plain green velvet

dress with a blouse bodice is made very striking by a collar with stole ends of silver fox and a finish of mink tails and cream lace rosettes. Velvetized in a deep rich shade of velvet is a good substitute for the silk velvet, which is beyond the means of the average woman, and the bodice of fur is slightly full in front to give a blouse effect. A frill of fine lace at the wrists and neck, where it is wired to stand out at the side and back of the velvet collar band, completes a very artistic gown. Plaid velvets and velvets make lovely waists for young girls to wear with plain cloth skirts, and require no trimming except some fancy buttons down the front and a collar and belt of satin. Plain liberty silk waists, with cloth skirts matching them in color, are another point in fashion which is pretty for young ladies; and narrow bands of fur, headed by an insertion of lace in the gray ecru tint, are an effective trimming, especially on red gowns, when chinchilla is the fur. Some of these dresses have accented-plaited skirts, and the silk bodice is treated in the same manner. The plain sleeves, with a kilted puff at the top, are trimmed round with rows of fur and lace, and one hand down the front, with fur on either edge, is all the trimming required on this style of bodice, except for the collar band.

A DESIRABLE MATERIAL. Drap d'ete is a desirable material for the plaited skirt, as it is soft and pliable and yet has all the appearance of the heavier cloth. Camel's hair cloth is also very much used, especially for home dresses, in the light colors, when it is made up very simply with a blouse bodice opening over a chiffon vest, and a collar and wide belt of satin or velvet in some contrasting color. Drap d'ete is fair to be a popular material for the early spring gowns, and in any of the gray, tan or wood shades it is a safe investment. A pretty idea for the thin foulard and china silk gowns, which are so much needed when the first warm days come, is a bodice made entirely of alternate bands of cream or white lace insertion and velvet ribbon of the color of the ground. The bands run around the back to the front, and the front blouse is fitted plain on the silk lining, and the front blouse is fitted over the velvet belt. Bands of the silk may be used instead of the velvet. If preferred, but they require a lining to give them body, and should be finished on the edge with a tiny piping or cord of the same or white silk. An inch and a quarter and an inch and a half are the right widths and the insertion should be about the same width.

Checked wool gowns, in green and black, black and white, and brown and white, made with the plain cloth bolero, braided with black, will be worn later on, and the vests will be white lisse, lace, or ruffled, finished with draped belt and collar of colored velvet. Braiding embellished with small bell drops covered with silk, such as were worn years ago, is a feature of trimming which is very effective and an example of this is shown in the first bodice illustrated. The material is green d'ete, the braiding black and the vest and narrow yoke are of cream white gullupure over white satin. The giraffe belt of green velvet is fastened across with loops of braid caught with enamelled buttons.

A THEATER WAIST. A pretty theater waist is of white chiffon, with a jacket of light broadened silk trimmed round with black velvet and a chiffon frill. Another bodice of this sort is of yellow chiffon over pink silk, finished at the low neck and belt with silver-spangled trimming. Pink and yellow brocade silk forms the jacket and sleeve puffs, and mink fur trims the edge. A simple waist of white glace silk with a flowered stripe has three bands of sequined embroidery down the front with a double puff of silk between.

Among the new tailor-made gowns

which will find a place in the spring fashions is one of tan cloth, trimmed with black braid put on in graceful scallops. Black satin forms the sleeve puffs and faces the revers, and the vest of lace is held in by a black satin belt. Another braided gown in a different shade of tan is made very dressy with gold braid and a brown velvet vest, spotted with gold embroidery, and fastened at the waist with a gold buckle. Dark green cloth is the material of another model, and pink and green changeable silk flecked with dark green spots makes the panel and pouch fronts in the bodice. Handsome gowns of pure lace outline the yoke, and points of lace fall over the sleeves and down the front.

SKATING DRESSES. Skating dresses are in great demand at this season of the year, and skating in the rinks on artificial ice permits a variety of ornamental dress which was never dreamed of in the days of skating out of doors. These dresses are usually made of cloth, but the velvet gown comes to the front here as well as on more dressy occasions, and one model shown is of violet velvet, outlined on the seams with blue silk braid. The vest is of tucked pink crepe de chine, and the stock collar and belt are of foulard spotted with black. In color the circular cut of skirt is considered very practical for this sort of costume, and much flare and fullness at the side are objectionable. Narrow bands of fur with a row of small buttons set straight around or in points to simulate an ascot, are stylish skirt trimmings, but the plain skirt is quite as pretty. A gown of gray cloth is trimmed on the bodice with a band of chiffon in the form of a bolero, and the waist below this is embroidered with jet and pearls. The vest is of Maltese lace over cream silk, and the collar and belt are of black satin. A bright red gown is trimmed with very fine plaidings of red and green, and tiny plaidings of red and green changeable silk fall below each band of braid. The skirt is fitted to the body, and the yoke outlined with black braid. Short full capes of fur with high Medici collars are worn with skating dresses, and Alaska sable is very stylish with a gown which has a band of the same fur around the bottom. A novelty for a skater shows a high collar and golet insertion of chinchilla with black satin rhinestone buttons for the finish. Some of the new wraps intended for spring wear are of colored silks trimmed with very fine plaidings of chiffon of the same color and an applique of the same color which is carried out in ecru silk and lined with changeable pink and white.

SOME PROFESSIONAL HATS. It is a bit out of season for buying new hats there are professional beauties who have to divert an admiring public with novel chapeaux at all times of the year, and some of the most prominent have lately appeared in hats which merit description. It was sketched by a Sunday artist before Mme. Lillian Nordica purchased the other day a charming little demi-season hat of a well-known hat maker, and the model to fashion the woman the rest of the summer. The actual hat was made of a well-known hat maker, and the model to fashion the woman the rest of the summer. The actual hat was made of a well-known hat maker, and the model to fashion the woman the rest of the summer. The actual hat was made of a well-known hat maker, and the model to fashion the woman the rest of the summer.

It is the English and French women who look upon a tea gown as a means of comfort, and who, when they are alone, usually consider it a luxury which she can dispense with better than almost any other. The idea of a tea gown is to save her street gown from unnecessary wear rarely enters into her contemplation, and she has observed her friends since she has so little time to be aesthetic in the most luxurious manner.

Silk tea gowns are a little out of style for other purposes are quite up to date in a tea gown, and the sales furnish an excellent opportunity for a pretty dress at a small price. White brocade makes a lovely material, lovely gowns, but less expensive fabric, striped with gray and pink in a bluish blue and cream lace form the trimmings. The sleeves are made of strips of silk, which is a little way from the edge to form frills between the shirtings. The Watteau plait in the back is a prevailing feature of this style of dress, and whatever the material may be, it adds a graceful effect if it is well fitted. Popular green Liberty satin makes a charming tea gown, with a front of white chiffon trimmed with yellow lace, and a belt of white satin confining the Watteau plait in the back and passing under the sides in front. A bolero jacket of satin, edged around with a frill of green crepe.

SPRING MILLINERY.

Hats Will Be Regular Flower Gardens Again.

Paris is universally acknowledged to be the home of fashion, but every one does not realize just how much that means. It means for one thing that spring has have to be planned in January, that in order to issue styles at all seasons of the year, the milliners of Paris have to go on several months in advance, says the New York Herald. So, says the New York Herald, the milliners of Paris are still preparing for the coming season, and the leading designers of the French capital.

PERHAPS THE most surprising thing about these forthcoming fashions is that the expected reaction against the daisy and the carnation, which characterized last season's millinery, is nowhere evident. Instead, there is a greater wealth of flowers, greater variety of color than ever. Indeed the milliners are preparing feasts of color that have never been equalled.

Sombre browns, grays and blacks are banished utterly. All the purples, all the reds, all the yellows and all the greens and all the blues, from lightest to darkest, are kept busy making combinations and contrasts at once striking, beautiful and novel. Violets, lilacs and hyacinths and the whole aster family that garb themselves naturally in the royal hue will be offered in tempting profusion. Roses will be gathered in huge clusters, but they will be solid red and pink. Even Jacqueminot and damask shades will be used, but no fancy, impossible tints.

GERANIUM. THE FAVORITE. Nasturtiums and wall flowers find tasteful and effective uses, but the great novelty will be the striking employment of vast quantities of geraniums in every tint of nature from pink to deepest red. Spring millinery will be a veritable flower festival, and only the actual models of nature will be patterned after. There will be no light blue roses, no Nile green violets and no yellow geraniums.

Great masses of early spring foliage, fresh violet leaves covered with dew so natural in appearance as to suggest the early morning dampness will relieve the high colors.

NEW CUBAN HAT. Now the Cubans happen to be at war and to express sympathy after a manner dear to her own heart the lively Frenchwoman chooses her spring hat from among those worn by the native Cubans. The Cuban hats are woven of rather coarse fibre, but adapt themselves readily to the hatter's block and dyes' pot. Even to America, by the way, these Cuban hats have penetrated and their popularity during the coming spring is unquestioned.

ADVANCE. EASTER HATS. To proceed to definite examples of the 1897 fashions, a walking hat, a stunning affair from the Gulliver sisters, Paris, is a good example. It is a large bell-crown Amazon, with a striking flare to its capacious brim.

On each side are solidly massed bright red roses extending the full height of the crown from a point below the brim in the back.

The crown is banded with folds of velvet and rich moire ribbon in a most exquisite shade of geranium. A tall cockade of the same ribbon, cut in points and held by a cut steel agrafe, rises on the right side.

Another gem is a very chic canotier, which is the French substitute for our favored short back sailor. It comes from the celebrated Puyanne.

The hat itself is a novelty, being made of the new facile in tan, faced with Java straw. The brim is edged with black velvet. The remarkably clever arrangement of the large coxcomb, how to the right in front and to the left, but much higher in the back, is the striking point of the hat.

These bows are made of three kinds of ribbon sewed together. First white satin, with a narrow black velvet stripe, then tan cross-stitch and finally a rich lilac satin. The combination is gathered and held by jet clasps. Purple ribbons is bunched in the back.

The large leghorn, from the workrooms of Mme. Josse, is the gem of the season. It is a very original and perfect Nile green ribbon are covered with antique lace. Black velvet and Nile green roses are clustered in the back, falling far down over the hair.

The tall, ruffled crown of black chintilly lace, surmounted by a bunch of glowing geraniums, rises from a black net brim covered with large satin poppies, which match the geraniums above to perfection. This hat is from Delmotte, and will be a great favorite in design, as it can readily be reproduced in a number of materials.

It is a bit out of season for buying new hats there are professional beauties who have to divert an admiring public with novel chapeaux at all times of the year, and some of the most prominent have lately appeared in hats which merit description. It was sketched by a Sunday artist before Mme. Lillian Nordica purchased the other day a charming little demi-season hat of a well-known hat maker, and the model to fashion the woman the rest of the summer. The actual hat was made of a well-known hat maker, and the model to fashion the woman the rest of the summer. The actual hat was made of a well-known hat maker, and the model to fashion the woman the rest of the summer.

THESE new Nordica hats are street wear solely and is built, as the milliner would say, "a l'Amazon." It is rather an aggressive-looking bit of headgear, with its stiff standing bows and wings, but Nordica doubtless realizes that there is a well-known class of women who can wear a wilful style of millinery and that she belongs to it. The crown of this new hat is made of black tulle and is brought up at the back to meet a group of stiff black wings.

The brim of silk fibre braid shields the eyes and rises straight to the piled up "convre cheveu" of twisted tulle, which is going to be the rage of the season. The wings, which make the formidable but exceedingly stylish back. A cut steel buckle holds the fullness in front and masses of gorgeous red roses fill the under brim over the ears. This is the only touch of color in the year, and harmonizes wonderfully with Mme. Nordica's pink cheeks.

MRS. SOTHERN'S OUTFIT.

Another heroine of the stage, Virginia

Harned-Sothern, has included in her bridal outfit a hat which not only is of New York origin, but will be interesting to all New Yorkers. Mrs. Sothern is said to look quite as charming in her new white and purple hat as she ever looked in her Trilby costumes and that is surely saying a great deal. Six large hat-like pieces of dark heliotrope velvet, faced with white moire velours and daintily edged with white Valenciennes lace form the rather fanciful brim of this picturesque new hat. The full Virot crown of white velours is banded with an inch-wide strap of the velvet, which is in turn strapped with cut steel. A mass of beautiful white ostrich plumes softens and completes the picture. There could be no prettier hat to accompany a heliotrope visiting costume.

MISS GAYLORD'S HOOD. A third hat, which a Sunday World artist likewise had the privilege of copying, was made for Miss Gaylord, the beautiful niece of William Waldor Astor. Miss Gaylord's milliner calls this new creation a "chapeau de blanches" and it is a very original as well as picturesque accompaniment of a theater costume. This chapeau, all society ladies will be astonished to hear is not only a very comfortable and convenient means of protection, but also one of the most becoming inventions of the season. The design is Franco-Italian.

The hood of plaited point d'Esprit is edged with a roll of grebe feathers and surmounted by a large bow of geranium-satin ribbon. The hood covers the head and hair completely, but loosely, and can be thrown back becomingly upon the shoulder cape of d'Alencon lace, made over a lining made of the same geranium shade of satin. A shirred collar of the satin, edged with a roll of grebe and tied with long broad streamers of geranium satin in ribbon, completes this striking piece of headgear. The rage for theater hoods is, it is said, fast spreading from Miss Gaylord's circle of friends to a large number of young society women who have seen and appreciated this one pretty hood.

EXPENSIVE SEASON.

Bad Year and Time For Thin Pocketbooks.

Mammas who have daughters and daughters who are belles seek frequently visit dressmakers this winter. The season has been so much gayer than even the leaders foresee that here the debutantes, with their large and newly made wardrobes, have fallen short of sufficient costumes to make the required varied change, says the Chicago Chronicle. The mothers, who anxiously awaited to see whether their daughters would be the successful ones, have been busy the last week with milliners and frockmakers preparing for the still coming balls and dances. Even those mammas who had had experience with former and older daughters are never sure whether they one to come on the scene will be popular or no, so that few of the young women introduced early in the year had more than three, or four at the most, dancing gowns, and now others must be made.

No matter how dainty and careful a

maiden may be, she cannot wear a ball dress over three times. The first time she dons it she is all loveliness in the freshness and beauty of the frock, no matter how simple it may be. The second wearing shows it to be slightly crushed, but if the young girl is the belle all debutantes long to be she comes home after the third ball with it in ribbons. For who can dance in the crowd of a big ballroom without being torn to pieces?

DANCING GOWN FABRICS. All the soft materials that are so expensive because they are perishable still continue to be used for dancing gowns. Tulle is the most popular of these gauzy materials, though mouseline de soie, crepes and organdies hold their own for ball gowns. Every color of the rainbow is used for the make-up, and sometimes all on one frock at that. The skirts are made simple or elaborate, according to the taste and figure of the wearer, but the corsage on one and all is fanciful. The skirts are made very full. This is necessary, for where the tulle or mouseline is used the slightest dampness causes it to hang close to the figure, which is not what is wanted this year.

The beautiful pink tulle made last week for a north shore lady was so full in the skirt that when the frock came home the young woman measured it, for she was persistent when it was taken from the box that she could never wear one more. It measured exactly thirty yards around the bottom, but when the girl saw herself in the mirror she was so much against the modiste, for the frock was perfect. The tulle was of the shade of morning roses and no suggestion even of another tone was used. There wasn't a curve or gore in the petticoat, the skirt hanging perfectly straight in its great width. The soft effect of the rose was carried out by a pink muslin petticoat being worn in place of a silk lining and over this were worn two more tulle ones. The outside skirt was finished at the bottom with pink satin ribbon not even fulled on. The corsage was, of course, cut low and was one mass of fine tucks. These ran around the figure and the neck was finished with the daintiest of small pink flowers. The sleeves were simply monstrous puffs in which four yards of the material were used, and tulle isn't narrow. These puffs were made of one flounce overlapping the other, and each edge was finished with the little pink flowers.

FOR THE ASSEMBLY BALLS. Another gown, but not so light and delicate in material, was recently sent home to be worn later at the much-stalked "assembly" ball. It was of straw-colored crepe and the sleeves and bolero were of amethyst velvet. The skirt was bound and trimmed at the bottom with a band of Bruges lace of exquisite pattern. This was headed with a small ruffling of crepe. The corsage was low and cut square in front, a fashion that the modistes seem determined to force upon their patrons, whether or no. This was of crepe, and over it was a bolero of amethyst velvet, and they came just above the elbow. They were full and slightly draped. The waistband was of the same colored velvet, and was fastened at the left side with a gorgeous buckle of amethyst set

DAINTILY CLAD.

FOR-A WINTER'S BICYCLE RIDE.

--	--	--

The Latest Deep Slash!
The Last Vigorous Effort!

That will move our winter stocks in each and all departments. Our February revised and reduced price sale. An irresistible temptation realized at this store that it is not many weeks that the alert clothes can be talking and selling winter garments, though they will be essential for wearing for several months yet. We have, therefore, determined to push things—slash things during these few weeks. The general, active trend of trade in this direction would not be sufficient to sell the winter stock we have—hence we shall make prices that will make it a special, swelling movement of watchful people our way.

Men's Suits--
Our choicest Suits, best in the house—your pick.....**\$13.50**

Excellent Suits--
Worth \$15.00, \$13.50 and \$12.00, your pick.....**\$9.45**

Men's Overcoats--
At \$16.25, \$15.00, \$12.00, \$11.00, \$10.50, \$9.75 and \$7.10, worth \$13.00, \$12.50, \$11.50, \$10.50 and \$10.00.

Boys' All-Wool Suits--
\$1.75, \$2.25, \$2.75 and \$3.10, worth much more.

Boys' Reefers At \$1.75, \$2.75 and \$3.60, worth much more.

Boys' Ulsters At \$1.35, \$1.75 and \$2.25 and on to \$4.40, worth much more.

Men's Hats As low as 80¢, then \$1.35, \$1.00, \$2.25 and \$2.50 for as good as ever worn.

Winter Caps-- Latest and best—while they last at 44¢, 50¢ and 60¢.

The sale is on, not in one place in the store, but it is all over the store.

SUCCEEDS ECKELS.

Dawes is to Be Comptroller of the Currency.

Chicago, Feb. 1.—Charles G. Dawes, who was seen by a representative of the Associated Press this morning, said: "The report that I have been tendered and accepted the appointment of comptroller of the currency is true. I have much regret in the early publicity which has unavoidably attached to the matter, for it seems to have given rise to the inference that I had some desire or expectation of exceeding Mr. Eckels prior to the expiration of his commission in 1898. I can say for myself and I think I speak for all concerned, that I sincerely hope Mr. Eckels may see his way clear to the retention of his position until the expiration of his commission.

"This distinguished services as comptroller of the currency rendered and so many embarrassments and complications have earned him the gratitude of the nation."

Charles D. Dawes was born in Marietta, O., Aug. 27, 1865, and graduated from Marietta college in 1885 and from the Cincinnati law school in 1888. During his college days he acquired the profession of civil engineering, and spent his vacations at that work, becoming the chief engineer of the Toledo & Ohio Central system. In 1887 he left Ohio for Lincoln, Neb., where he became prominent as a lawyer and business man. He was a leader in the discussions of the freight schedules of Nebraska, about the time of and after the passage of the interstate commerce law. He was also a student of financial questions, and in 1894 published a book entitled "The Banking System of the United States and Its Relation to the Money and Business of the Country." He has been for many years a national bank director.

In 1892 he became a resident of Evanston, Ill., having been interested in the Northwestern Gas and Coke company, of that place. He was the leader in the McKinley movement in Illinois, which ended in instructions for McKinley at the Springfield convention. He was then appointed by M. A. Hanna as the member from Illinois of the executive committee of the Republican national committee. Mr. Dawes is president of the gas companies of Akron, O.; La Crosse, Wis., and Evanston, Ill., and is vice president of the Lincoln Packing company. In 1889 he married Miss Cary D. Hymor, of Cincinnati, O., and has two children.

PRESIDENTIAL APPOINTMENTS.

Washington, Feb. 1.—The president today sent to the senate the following nominations:

Justice—Henry E. Davis, of the District of Columbia, to fill the vacancy created by the death of Chief Justice Waite.

State—Martin A. Knapp, of New York, to be interstate commerce commissioner (a reappointment); Frederick W. Kieselbach, Jr., of Wisconsin, consul at Stuttgart, Germany.

War—Col. John M. Wilson, corps of engineers, to be chief of engineers with rank of brigadier general; Lieut. Col. Charles W. Walker, Nineteenth infantry, to be colonel; Maj. C. C. Hood, Seventh infantry, to be lieutenant colonel; Capt. Constant Williams, Seventh infantry, to be major.

REPEALED

Horse Thief Bounty Bill Practically Unanimously Repealed in the House.

District Court Reporters May Be Salaried and the Fees Reduced.

Considerable Opposition to Schmidt's State Funds Depository Bill Appears.

St. Paul, Feb. 1.—(Special to The Herald).—The house was a few minutes late today, but lack of committee reports soon brought up introduction of bills, among them, one for the purpose, to provide for appointment of court reporters in district courts, putting such reporters on a salary of \$1800, reducing fees and turning fees into county treasury. Judiciary.

John Jacobson and others, making 6 per cent legal rate, deposited a bill, to amend general laws relating to dissolution of independent school districts.

Soile, to regulate sale and storage of gasoline, kerosene, or naphtha. Criminals and punishment.

On the calendar, the House bill repealing the bounty for capture of horse thieves, was passed by a vote of 24 to 2.

In the committee of the whole, Mr. Anderson presiding, general orders were taken up. The Schmidt bill to provide depositories for state funds was taken up and discussed at some length, considerable opposition to it developing.

Mr. Schmidt spoke at some length in support of his bill, claiming that it simply threw additional safeguards about the public funds, and that the state finances were not as secure as they should be, and believed the measure was highly necessary and beneficial, and he wanted it recommended to pass.

Mr. Jacobson opposed on the ground that the bill would release the state treasurer's bondsmen from responsibility. He held that the deposit of depositories were irresponsible, and insisted that the present law should be simply made more stringent.

Mr. Schmidt moved that the bill be indefinitely postponed. Mr. Schmidt maintained that under the present law the state treasurer could favor pet banks with improper amounts of deposit, but that his bill would prevent this, and would have some good points, and should be amended rather than killed. He made the startling statement that he had been informed that the state treasurer had not yet been able to secure a bond.

Mr. Scott moved to refer the bill to the banking committee, and it was so referred.

Mr. Staples presented a resolution authorizing the committee investigating the Mountain Iron land matter to audit its expenses and have them paid on presentation of proper vouchers, and the resolution was adopted. The house then adjourned.

MRS. SPOFFORD INSANE.

Redwood Falls Woman's Troubles Unseat Her Reason.

Redwood Falls, Minn., Feb. 1.—(Special to The Herald).—The pathetic comes from Osceola, Kas., to the effect that Mrs. John Spofford, who is en route from this point to Houston, Texas, became violently insane on a train bound for that Southern point, and that she was committed to the insane asylum by a probate judge of that county. Mrs. Spofford was found on the South for the purpose of regaining possession of her three children which were kidnapped from her while she was on the farm of her brother, Charles Zuberli, of the town of Johnsonville, this county. The facts leading up to the kidnapping are the most sensational on record so far as family troubles are concerned.

A few months ago the friends of Mrs. Spofford took up a collection in Redwood and Brown counties to aid her in recovering the children. A good purse was made up. About two weeks ago Mrs. Spofford left for Houston, having in her possession the money collected for her, and a letter from Mr. Lind to leading Houston attorneys. The next heard of Mrs. Spofford was a telegram from her, stating that she had been kidnapped, and committed to the hospital in this state.

The Osceola probate judge stated that only a few pieces of money were found on her person, and the theory here is that she was robbed, and that the robbery, together with the loss of her three youngest children, drove her insane. An attempt is now being made to have her brought back from Kansas, and committed to the hospital in this state.

GOT A LIFE SENTENCE.

Akron, Ohio, Feb. 1.—Romulus Cotel, who killed Alvin Stone and wife, found guilty in the first trial and was sentenced to hang Nov. 6.

KALAMAZOO'S LOSS.

Kalamazoo, Mich., Feb. 1.—The High school building burned this morning. Loss on building, \$40,000; insurance, \$20,000. Wred Wildemuth and Fred Wildemuth, who were in the building, the former sustaining a broken leg and the latter a seriously injured back, resulting in paralysis of the lower limbs.

EXPLODED

Bank Building at Hollidaysburg, Pennsylvania Shattered by Dynamite.

Many Buildings Damaged But Bank Vault Was Not at All Hurt.

Bank at Eldon, Iowa, Blown Open and All the Funds Taken.

Hollidaysburg, Pa., Feb. 1.—An attempt was made early this morning to blow up the bank building lately occupied by the firm of Gardner, Morrow & company, private bankers. The building is located in the center of the business portion of the town. A stick of dynamite was forced under the front door of the bank, and then set off. An explosion like a roll of thunder followed. The windows of every establishment in the square were shattered by the force of the explosion, the sound being heard in all the surrounding towns.

The bank door was burst open, and the entire floor torn up. No damage was done to the bank vault, or the books, however. On the opposite side of the street from where the explosion occurred, the front of the First National bank, Evans Glasser's store, the residence of Charles Winkler, Maj. S. S. Barr, Mrs. Elizabeth Christy, Dr. James D. Hanner, Stiller's millinery store and Goldman's clothing store, were all damaged by the shock, every plate glass window in the stores being demolished.

The dynamiters performed their work while the night watchman was at the other end of the block. The motive for the crime is ascribed to the resentment and hatred of some depositor. The bank failed last September. An assignee was appointed, and it was found that the assets were insufficient to pay 20 per cent of the indebtedness. The police think they have a clue.

ALL CASH TAKEN.

Iowa Bank Looted of All Its Funds.

Ottumwa, Iowa, Feb. 1.—Bradley's bank at Eldon was burglarized at 3 o'clock this morning. The safe was blown open with nitro glycerine and all the funds taken. The bank officers refuse to state how much was taken, but they usually keep \$5000 to \$8000 on hand. The burglars escaped with a stolen team and baggage.

ECKELS TALKS.

Conference With the House Banking Committee.

Washington, Feb. 1.—Comptroller of the currency Eckels had a second conference with the house committee on banking and currency today, which was a continuance of the meeting of last Thursday. Mr. Eckels expressed the opinion that the only remedy for existing financial troubles were a complete revision of the banking system, which would amount almost to a new system. The discussion was an informal one, in which all the members of the committee took part. Mr. Eckels thought that no more gold for redemption purposes would be needed under a proper banking system than now. The daily use for metallic money was for redemption purposes. Replying to Representative Newlands, he said that principal banks did not need such large reserves so much to protect their currency as to protect their depositors. He had been invited in his endeavors to reach the gold standard. Mr. Eckels said, by adverse business conditions and by heavy taxation on her people. The character of the Russian people were such that they would not require the redemption than in countries where they were more used to banking methods.

HILL DENIES IT.

Contemplating No Northern Pacific Traffic Alliance.

New York, Feb. 1.—President J. J. Hill, of the Great Northern railroad, denied in an interview today, the rumors current of an impending traffic alliance with the Northern Pacific interests.

WILSON ACCEPTS.

Iowa Man Will Be Secretary of Agriculture.

Minneapolis, Feb. 1.—(Special to The Herald).—A special to the Journal from Des Moines, Iowa, says James Wilson has been offered and accepted the position of secretary of agriculture.

REPORT CONFIRMED.

Chicago, Feb. 1.—The News Washington special says, Ex-Congressman Wilson of Iowa has accepted the office of secretary of agriculture in President McKinley's cabinet. Senator Allison received a telegram from Mr. Wilson today saying he had accepted.

OCEAN STEAMSHIPS.

Remnants of Fine Silks.

On Saturday we bought from the representative of the Vontack Silk Company his entire line of solid-colored Silks, in lengths of 1 1/4 and 1 1/2 yards; the goods come in black and colors, and are worth at wholesale from 75c to \$1.50 a yard; your pick while they last at per yard.....**39c**

Cloak Dept.

We have just 21 Black Fur Capes, satin lined, full sweep and extra long, worth \$10 each; sale price.....**\$3.89**

Percales.

2 cases 35-inch new, stylish percales, the kind some offer at a bargain at 10c and 11c; our price.....**7 1/2c**

Panton & White.

BROOKLYN

United States' New and Fine Warship Badly Wrecked Saturday.

Tore Her Bottom Open By Striking a Rock in the River.

First Voyage of the Big Ship a Most Disastrous One.

Philadelphia, Feb. 1.—The United States cruiser Brooklyn, the latest pride of a powerless navy, calculated to withstand the fiercest onslaught of shot and shell almost utterly helpless because of a wayward and ill-fated voyage, was wrecked in the Delaware river above Marcus Hook, Pa., on which she struck heavily Saturday afternoon. Her lower bottom compartments forward were completely stove in, and it was only by the most good fortune that the big vessel did not sink. This would undoubtedly have been the result had not her inner compartments successfully withstood the shock. As it was, she was pulled clear of the rocks and is now tied to the big stone breakers at Marcus Hook, protected from the heavy ice gorges in midwinter. The big vessel is seriously damaged. How the accident occurred can only be established by a court of inquiry, and this Capt. Cook, of the Brooklyn, has already asked for. What makes the accident even more deplorable is the fact that this was the first time the ship has been handled by the present officers and crew since going into commission in the early part of December.

All arrangements had been completed for going to sea, when the cold snap set in and was followed by the piling up of ice in the river until the Brooklyn was hemmed in tight and fast. The position of the big ship was considered to be perilous, and it was believed that if she was not soon moved the heavy engine room would force her ashore. Then it was decided to take her to Crump's Saturday, where a safer berth had been followed by her. After one of the city ice boats had broken a passage around the cruiser, and four big tugs were ready to lend a hand to tow her to her destination, the Brooklyn, under her own steam, got underway. But when she came down the river, the ice boat breaking a way for her and two of the tugs following in her wake.

The two pilots, Capt. Wall and Bennett, two of the most careful and experienced men on the river, were on the cruiser, and she made her way easily enough through the masses of floating ice. She first struck a stone at the site and close to the Schooner Ledge channel when the pilots sent her lightly to starboard, where she was constantly better water. Almost instantly the vessel struck the rocks with a jar that shook the cruiser to the stern. For a moment all was confusion, but for a moment only. The engines responded heartily, and she was quickly backed off.

A hasty examination, followed by a closer one, showed that the striking of her prow had indicated, that damage had resulted. While the inner compartments were damaged, but not at all injured, the bulk of the harm had been done to the outer compartments, directly under the officers' and crew's rooms. The city ice boat and the tug then towed her to Marcus Hook, where she was made fast to the breakers.

When the press representatives boarded her, the cruiser's bow had settled over a foot in the river. Nothing else appeared to be out of order. On board, however, a general feeling of gloom pervaded the ship, and although none could be prevailed upon to talk about the matter, it was evident that the crew only waited for the ship to be ordered to return to her ship. Capt. Cook contented himself by saying that he had notified the navy department and had asked for the appointment of a court of inquiry.

It is evident from the heavy ice in the river that the Brooklyn cannot be moved from her present anchorage till a general thaw has set in, and only when she is docked, can the actual extent of the damage become known. It cannot be said with justice that any one was responsible for the accident. Two of the best pilots on the river conducted the big ship down the river and dictated its course. The grounding of the vessel was a great surprise to them for both believe there was plenty of water and that they were not close to the ledge.

The only one received on board the ship except the Associated Press reporter was Capt. Sargent, of Cramps, who had walked across the ice at great peril to his life. In his thirty-seven years as a sailor, this is the first time Capt. Cook has met with an accident, although nobody holds that he is in the slightest to blame.

The Brooklyn is the latest and most modern pattern of an armored cruiser in the navy, and was launched at Cramp's shipyard on Oct. 2. She is the only vessel in the navy having a complete electrical apparatus for moving her turrets. Her cost, exclusive of armament, was \$2,850,000. Her battery consists of eight 8-inch breech loading rifles of 35 caliber, 12 5-inch breech loading rifles of the rapid fire type, 12 6-pounder rapid fire guns, four machine guns.

Capt. Cook notified Secretary Herbert in the following brief dispatch: "Left League Island on account of the ice jam. Struck on Schooner Ledge. Double bottom compartment under the engine and fire rooms full of water. Leak in bilge, but kept clear by pumps. Safely moored to ice pier."

THE ALLIANCE RELEASED.—Washington, Feb. 1.—Word has reached Secretary Herbert from Com. mandant Brown, at the Norfolk navy yard, that the United States vessel Alliance, used as a school ship for naval apprentices, which went ashore Saturday night at Cape Henry, Va., succeeded in getting off the beach and arrived at Newport News. The commandant says the Alliance is uninjured. She was beached without assistance, although a wrecking tug was sent to assist her.

The commandant says the Alliance is uninjured. She was beached without assistance, although a wrecking tug was sent to assist her.

Administration Not Pleased With Several of the Senate Amendments.

And Great Britain Probably Will Refuse to Accept the Changes.

Opinions of Several of the Leading English Papers.

New York, Feb. 1.—A report to the Herald from Washington says: The Anglo-American arbitration treaty, as amended by the senate commission on foreign relations, is highly objectionable to the administration. If the treaty in its present shape is ratified by the senate it will not be proclaimed during the present administration, or during Lord Salisbury's incumbency of office in England. Such, at least, is the opinion of leading members of the administration, who, recognizing that Lord Salisbury, who has already made considerable political capital for himself out of the fact that he was able to successfully negotiate a treaty with the Cleveland administration, will have nothing to lose by not accepting amendments by the senate, purposely made objectionable to Great Britain.

It is not definitely known whether Secretary Olney and Sir Julian Pauncefote have conferred regarding the committee amendments, but your correspondent has positive knowledge that the administration officials have abandoned all hope of the acceptance of the treaty by Great Britain if ratified in its amended form.

Your correspondent has already learned of another important amendment to the treaty that did not leak out until Sunday morning. This article provides that objections to the jurisdiction of an arbitral tribunal, constituted under this treaty, shall not be taken, except as provided in this article.

THEY WANT GOOD ROADS. The National Congress of Highway Improvers.

Orlando, Fla., Feb. 1.—The national good roads congress will be held here tomorrow. Many prominent men throughout the country will attend this congress, which has been prepared by the executive committee, consisting of other things of the kind, papers on good roads, specially prepared for the occasion by able men who are familiar with the subject. The article includes a review of the good roads work that has been done, the work progressing and plans for the future. The most conspicuous members of the congress will be the Hon. Roy Stone, secretary of the national good roads congress, who will represent the national government, and the Hon. J. M. McKim, secretary of the American Road & Builders' Builders' Association.

Orlando, with its magnificently cased streets and roads to Winter Park and its splendid view of the future, is an attraction to the cyclist who is in the city.

English Opinion. Not Complimentary to the Senate Manipulators.

London, Feb. 1.—The afternoon newspapers generally expressing the disappointment at the proposed amendment of the arbitration treaty and the Westminister Gazette hopes that public opinion in the United States will make itself felt before the senate acts upon the report of its committee on foreign relations.

The Pall Mall Gazette says: "The committee is doing its best to make way with the treaty, but has not dared to have public opinion in absolutely withholding its approval; but it has left it valueless."

The Globe remarks: "The amendment excludes every question of real importance and leaves the treaty meaningless. It is a mere device to save the senate from the consequences of its own action, and it is a device that will not succeed."

The Minneapolis Iron company is doing exploration work on section 27, T. 12 N., R. 10 E., S. 10 W., in the city of Duluth. The company has just completed the first ward of the last meeting of the council. The resignation of J. D. Kellum made this move necessary.

The local judge J. O. G. T. will give a lecture on Tuesday evening, Feb. 5.

Owing to the severe weather during the past week, but little ice cutting on the lake has been done. Hartfield has been filled most of the country.

C. C. Pickard, of Tower, was in the city the first of the week. He was accompanied by his wife and daughter. Manager John Pengilly and Paymaster Kelly of the Chandler have returned from their recent trip through Michigan and Wisconsin.

Invitations have been issued for a masquerade at the Ely Dramatic company on Feb. 12.

The Pioneer Iron company paid its employees the last of the week. B. Horowitz was in the city last week from Hibbing.

One of the pleasant social events of the past week was the party at the home of Dr. and Mrs. Shipman. A social club was organized, which will meet each Friday evening during the winter.

RUSSIA'S LIBERALITY.—New York, Feb. 1.—A dispatch to the Herald from St. Petersburg says: The Glasnost, which of late seems to have been especially inspired concerning the "little" Eastern question—a Russian question is called here, in contradistinction to the greater Eastern question—speaking of Corea, says: "Russia cannot demand the pillage of Turkey; together with Turkey's other creditors, Russia has given Turkey 100 years to pay her war indemnity of 3,000,000 roubles."

CANADIAN CATTLE TRADE.—Toronto, Feb. 1.—Canadian cattlemen believe, through the favorable arrangements made by the Dominion authorities for the raising of forty days' quarantine on Canadian cattle going into the United States, they will be able to build up a valuable port trade. It is understood the quarantine regulations requiring that all cattle sent to the United States from Canada shall be quarantined forty days before permission can be obtained to sell them will be abrogated.

AN EASY TRIP.—Phoenix, Ariz., Feb. 1.—Robert Lincoln, Gen. Merritt, Gen. Fairbank, Major Taylor, and others, have left for New Orleans this morning. They will make the trip by easy stages.

GAINED 26 POUNDS.

Got Strong and Well by Using Dr. Greene's Nervura.

Mrs. J. W. Deale, 52 Eastern Ave., Worcester, Mass., says: "I was sick for more than seven years, not able to do my housework for five years. The whole length of my spine was very bad, which went to my head, being so bad that it was almost impossible for me to stoop to the floor."

Dr. Greene's Nervura cured me. I have gained 26 pounds in weight, and feel strong and well, and able to do my work. I have gained 26 pounds in weight, and feel strong and well, and able to do my work. I have gained 26 pounds in weight, and feel strong and well, and able to do my work.

GERMAN SUGAR.

An Over Production of the Saccharine Stuff.

Washington, Feb. 1.—United States Consul General Charles DoKay at Berlin, Germany, the annual report says: "More factories have been built and the old factories have produced more sugar. The consequence is that Germany pays high prices for their own sugar. America and England very low prices for German sugar. Over production has already crowded its way to the wall and the sugar manufacturers and beet growers are already petitioning for further favors in this spring, and the production of these regular duties increase in sale, grave consequences are expected in this branch of business in Germany."

Speaking of general trade with the United States, the consul general says, sugar, boys, chemicals and drugs are about the only exports to America which have been successful. Though the trade in textiles shows a tremendous increase it did not satisfy the manufacturers. Great hopes were founded on the brisk demand from the United States after the elections for silk, half silk, linen and woolen goods, but these hopes were unavailing.

The consul general says: "The reason for the record of Germany in 1896 must be recognized to have its basis in her financial position. Owing to the sound finances the rate of interest has been very low and money was to be had for all legitimate business ventures. The liveliness of industries has its good effects on agriculture and both together produced the largest surplus in railway income ever known in Germany."

OLD BACHELOR'S WILL.

Battle Creek, Mich., Feb. 2.--The will of Charles Willard, the eccentric old bachelor, who died Sunday, bequeathes \$40,000 to be expended in the erection of a library building here for the city schools, \$40,000 for a Young Men's Christian Association building here, and \$40,000 to the Baptist college at Kalamazoo. The heirs are also well provided for. Mr. Willard, a few days before his death, decreed the city sixteen acres on Gogebic Lake for a park.

MARTIAL LAW IN MADRID.

Madrid, Feb. 2.--Serious strikes and bread riots have occurred here. There have been manifestations before the town hall; windows have been broken, and many arrests have been made. The municipal authorities have resigned, owing to their inability to suppress the disturbances and martial law has been proclaimed.

A CONTESTED ELECTION.

Washington, Feb. 2.--The house committee on elections today discussed the Georgia contested election case of Watson vs. Black. It came to no decision. The committee will meet again Friday.

THE OREGON SENATORSHIP.

Salem, Ore., Feb. 2.--Ballot for United States senator is to be taken in the Benson house today, and it is the purpose of the Mitchell management to force a vote in the senate. Rumors of a deal between the Mitchell men and Democrats have been rife. They are warmly denied by the Democrats, but it is generally reported that the Democrats will go into joint convention tomorrow. The Benson caucus decided to take a vote today, whether thirty-one members are present or not. For the past week only thirty have attended. If Mitchell secures a majority of the senate and a majority of the Benson organization, thirty-one being present, it is said he will claim election to dock. The crew were completely exhausted from their long struggle with the ice.

IMPERILLED TUG RETURNS.

Chicago, Feb. 2.--The tug A. C. Van Raaite, which was hemmed in by ice last night while returning from the intermediate crib, off Sixty-third street, finally succeeded in making her way to dock. The tug was completely exhausted from their long struggle with the ice.

RUSSELL SAGE WINS.

Defeats a Settler in Minnesota's Supreme Court.

St. Paul, Feb. 2.--(Special to The Herald.)--Justice Mitchell, of the supreme court this morning handed down a number of decisions, one of them decides one of the Hastings & Dakota land cases in favor of Russell Sage against a settler named Andrew Rudnick, reversing the lower court, and another dismisses the writ of quo warranto against F. A. Sullivan, judge of the county of Hennepin, who declares the organization of the municipal court in that town valid. The decision follows.

Russell Sage, as assignee in trust of the Hastings & Dakota Railway company, appellant, vs. Andrew Rudnick, respondent.

Daniel E. Lowe, appellant, vs. J. J. Torres, respondent. Order affirmed.

State of Minnesota, ex-Rel H. N. Hagedast, plaintiff, vs. F. A. Sullivan, defendant. Order discharged.

Theodore Glaeser, appellant, vs. the city of St. Paul, respondent. Order affirmed.

James S. Hay, as receiver of the Columbia Fire Insurance company, of Iowa, respondent, vs. George H. Lewis, et al, appellants. Order affirmed.

Theodore Streissguth, respondent, vs. John Gelbe, et al, appellants. Order affirmed.

Levi L. Cook, respondent, vs. Hazen M. Parker, as receiver of the Liljengren Fur and Skin company, appellant. Order reversed, and judgment ordered for defendant.

THE ESTIMATES DIFFER.

The Chippewa Pine Land Estimates Vary Greatly.

Washington, Feb. 2.--(Special to The Herald.)--The commissioner of the land office has made a comparison of the estimates of pine on forty-acre tracts on the Chippewa reservation made by the Douglas and Staples estimators. On about four hundred tracts the difference between the two estimates is 8,000,000 feet of timber, an average of 20,000 to each foot.

On the Douglas estimator reported 200,000 feet more than the Douglas estimator. Figuring upon the difference between the estimates on the four hundred tracts would aggregate 8,000,000 feet. The Douglas estimator alleges that the Wright estimator is wrong and that two experts can agree on the amount of timber on any tract.

STATE INVESTMENTS.

Feig's Resolution to Investigate Passes the House.

St. Paul, Feb. 2.--(Special to The Herald.)--The Feig resolutions to investigate the state investments, banks and bonds were passed in the house today. Among the new bills were the following:

Brusletten, for municipal courts in incorporated cities of less than 5000 inhabitants. Judiciary.

McDonald, to give railroads right of eminent domain in certain cases. Railroad.

McDonald, to declare known burglars, thieves, etc., not honestly employed, to be vagrants. Crimes and punishments.

Gunn, by request, providing for changing boundary between adjoining counties. Judiciary.

Gunn, \$10,000 to aid in surveying and building a road in Carlton county. Roads and bridges.

Severance, to license guides for hunting parties. Game and fish laws.

Severance, to appropriate \$5000 for the collection and preservation of all kinds of birds, fruits, nuts, etc. Game and fish laws.

Yates, providing for listing of property by landowners. General legislation.

Laybourn, to amend general statutes, 1878, relating to logs and lumber. Logs and lumber.

Abbott, licensing non-resident hunters. Game and fish laws.

Jacobson, specifying when and how actions may be instituted by the state to vacate a grant. Judiciary.

Mr. Daulton asked a question of privilege and information to correct some inaccurate statements in the Mountain News. The bill amends the act relating to the secretary of state, who has been charged with negligence in losing the evidence taken by the investigating committee two years ago. He stated that the evidence had been kept in the vault, and was produced promptly when called for by the state auditor. Mr. Feig endorsed what had been said, and Mr. Daulton said he for one had never intended to slur the secretary of state. He also took occasion to regret the enterprise of the newspapers in giving all the facts of the Mountain investigation, which was being held behind closed doors.

The house then went into committee of the whole for consideration of general orders. Mr. Hicks presiding. Owing to the absence of the author of several bills the Grondahl bicycle bill was the only measure acted on. It authorizes private associations to build bicycle paths at their own expense, and provides for public protection for the same. The bill was referred back to its author for amendment, after Mr. Grondahl had eulogized it and it had been discussed for over an hour. The house then adjourned.

A NEW POSTMASTER.

C. J. Lindberg Appointed to Serve at Thomson.

Washington, Feb. 2.--(Special to The Herald.)--C. J. Lindberg was today appointed postmaster at Thomson, Carlton county, Minn., vice M. R. Kidder, resigned.

TREATY TALKS.

What the Paris Gaulois Thinks About It.

Paris, Feb. 2.--The Gaulois attributes the hanging up of the treaty of arbitration arranged between Great Britain and the United States to Secretary of State Lansing's unpopularity and the desire of the Republicans not to allow President Cleveland the honor of signing such an important document.

AN ENGLISH SUGGESTION.

London, Feb. 2.--The Westminster Gazette, touching upon the delay in the passage of the arbitration treaty between Great Britain and Australia, makes the following remarks: "The jingoism and silverites of both parties will not have even a symbolic act of peace with Great Britain. If there is any doubt of its passing, we frankly hope the treaty will be withdrawn. Great and striking as would have been its ratification as a contribution to the cause of peace, its passage would certainly be a correspondingly serious setback."

VANDERBILT DECLINES.

New York, Feb. 2.--Cornelius Vanderbilt has declined to accept the nomination of the reception committee for the inaugural ball, politely declining to accept the nomination. The reception committee, to which Gen. Miles had appointed him, on learning that he intended to live in Washington for the next few months, the declaration, it is understood, is due to Mr. Vanderbilt's health, and his desire not to participate in social functions during his stay in Washington.

A MURDEROUS PARENT.

Tacoma, Wash., Feb. 2.--A. W. Lindner, a farmer living on Anderson's island, came home late last night, and, in a fit of anger, took down a gun and blew out the brains of his 6-year-old son. He then placed the muzzle of the gun to his head and blew out his own brains.

THE SENATE'S DOINGS.

Senator Miller Takes Action Regarding Railway Rates.

St. Paul, Feb. 2.--The session of the senate this afternoon opened with a statement in behalf of the committee to investigate department stores. Senator Thoden resented the imputation contained in a Minneapolis publication, which purported to be an interview with a couple of Minneapolis merchants. Senator Thoden vigorously denounced the interview as false, low, libelous and unjustified. No action was suggested or taken on Mr. Thoden's remarks.

Senator Miller submitted a resolution which would require each railroad to furnish a statement showing what reductions in rates, if any, had been ordered, secured, or obtained during the past year. The resolution was passed. The resolution was completely exhausted from their long struggle with the ice.

CAPTIVE.

Butler, the Most Famous Murderer of Modern Times, Caught.

Round the World Chase of Australian Detectives Ends at San Francisco.

San Francisco, Feb. 2.--George Edward Butler, alias Ashe, the murderer whose arrival on the ship Swanhilde had been reported in San Francisco, was sighted at 5:15 this morning coming through the heads in tow of the tug. The tug blew six whistles, the signal agreed upon if Butler was on board, but detectives waiting down the city at 5:30 did not hear them. The tug was not seen until it suddenly flashed a red light, and the Swanhilde was coming in, they did not know whether it was the tug or the Swanhilde. The tug was not seen until it suddenly flashed a red light, and the Swanhilde was coming in, they did not know whether it was the tug or the Swanhilde. The tug was not seen until it suddenly flashed a red light, and the Swanhilde was coming in, they did not know whether it was the tug or the Swanhilde.

SLAYER OF OVER FORTY INNOCENT MEN EXTRADITED FOR AUSTRALIA.

TAMARACK MINE ABLAZE.

Four Miners Cut Off By the Flames.

Houghton, Mich., Feb. 2.--(Special to The Herald.)--Fire broke out suddenly in the ninth level south No. 3 shaft, Tamarack mine at 10 o'clock this morning. The trammers left the plant with a load of rock leaving all well, and returning five minutes later, found the timber ablaze. Two lines of hose are now playing on the fire, and it is hoped to prevent its gaining access to the shaft which would serve as a chimney nearly 4700 feet high, that being the vertical depth of the shaft.

Four miners are cut off being below the fire, but the air compressor is at work forcing air to them. Two lines of hose are playing on the flames. The firemen are working at great disadvantage and personal discomfort as well as danger.

Later--Heroic efforts are being made to prevent the fire spreading from the burning pit into No. 3 shaft of the Tamarack, but the firemen are working under a terrible disadvantage, being nearly a mile under ground. It is scarcely possible that the five imprisoned miners can survive the terrible heat with which they are exposed, though fresh air is being constantly pumped to them.

SAULT CANAL TRAFFIC.

Annual Report to Congress By Secretary Lamont.

Washington, Feb. 2.--(Special to The Herald.)--Secretary Lamont has transmitted to congress a report on the business done through the Sault canal, American and Canadian, during 1896. The total freight through both was 16,239,000 tons, exceeding all previous records by nearly 125,000 tons. There was a reduction of 3,855,556 tons passing through the United States canal as compared with 1895, a result due to the Canadian canal, most of the reduction being due to the fact that the new United States lock at Sault Ste. Marie was not opened until August, 1896.

The notable increase over 1895 through the canal was 25 per cent in soft coal, 27 per cent in wheat and 230 per cent in other grains. The decreases were: Hard coal, 10 per cent; salt, 12 per cent; lumber, 8 per cent; building stone, 36 per cent. The total number of vessels through the United States canal last year was 13,441; through the Canadian canal, 5174.

CHIMAY DIVORCED.

Now the Ex-Princess May Marry Her Gypsy.

Charleroi, Belgium, Feb. 2.--The Prince De Chimay was today granted a divorce from his wife, the Princess De Chimay, formerly Miss Clara Ward, of Detroit, on account of her misconduct with James Riggs, a Hungarian gypsy musician, with whom she eloped last summer. Their very few people present at the close of the proceedings.

A BIG FAILURE.

Philadelphia Lead Company in a Receiver's Hands.

Pittsburgh, Pa., Feb. 2.--The Philadelphia Lead company went into the hands of receivers today. The liabilities are about \$1,400,000. The application for a receiver was made by George S. Griscom, the trustee of H. E. Anderson, who was the sole owner of the company. The company holds 100 shares of its capital stock at a par value of \$100. The liabilities of the company are placed in the bill at \$1,400,000 in the form of commercial paper. Of this \$1,400,000 matures in February, 1897. The large part of this has been endorsed by the Pennsylvania Smelting company at Salt Lake, Utah. As the head of these two companies is compelled to pay lead, silver and gold ores in all parts of the West and throughout Mexico, these companies are smeltered in Utah and mined at the lead works station on the Pan Handle railway.

It was impossible for the company to go ahead in its work with Mr. Schwartz in his present condition, and with no head to the concern, it was a case of a receiver's hands. The court named Messrs. Griscom and Anderson as receivers and directed them to give bonds in the sum of \$100,000. Just previous to filing the bill the company confessed judgment to Griscom for the amount of \$246,243, which with the attorney's commission added makes \$248,226.

GUATEMALAN REVOLT.

President Barrios Has a New Trouble on Hand.

New York, Feb. 2.--The Herald's correspondent in Managua, Nicaragua, telegraphs that a revolution has broken out in Guatemala. The dispatch seems to indicate that President Barrios of Guatemala has received a check from which his ambition may suffer.

At the time of the formation of the greater republic of Central America President Barrios was credited with opposing the scheme as a distinct menace to the stability of his administration and as a strong impediment to the realization of his desire to be the foremost leader in Central America's politics. It may be that the worst fears of Barrios have proved well grounded and he is now suffering from the machinations of designing neighbors.

STOCK BROKERS FAIL.

Boston, Feb. 2.--The failure of E. C. Hodges & Co., bankers and brokers, was announced at the opening of the stock exchange today. The holdings of the firm were sold under the rule of the floor of the exchange. No statement of the company's affairs has been obtained. George E. Dixon, of the firm of Dixon & Knowles, has been named as assignee.

MAY BE BUTLER'S WIFE.

Napa, Cal., Feb. 2.--Mrs. Nettie Butler, of California, thinks she may be the wife of Butler the murderer, who arrived today on the Swanhilde. She was married to Butler five years ago and lived with him in San Francisco a few weeks when he deserted her. She afterwards heard he went to Australia. She has a boy, three years old by him now in the Vallejo orphan's home. Mrs. Butler has gone to San Francisco to see Butler.

BLAZING.

Pennsylvania's Fine Capitol Building at Harrisburg, Destroyed By Fire.

Harrisburg, Pa., Feb. 2.--Fire broke out at 1 o'clock in the senate wing of the state capitol, and at 1:30 the building seems to be doomed, as the fire department is unable to control the flames. The fire originated in the room of Lieutenant Governor Walter Lyon, over the senate chamber. It is supposed to have been started by an electric wire. The fire burned for several minutes before it was discovered. It had made such headway that but little could be saved in the costly apartments of the lieutenant governor or across the hall in the room of the superintendent of public instruction, Shafer, who was also in his office when the fire was discovered. He did all he could to check the fire, but it was not in his power. All he saved were the appropriation books. Thousands of dollars worth of records were lost.

The flames had eaten their way through the senate roof before the fire department arrived. Part of the roof tumbled in before the water was started. Then the streams were so small that the fire laughed at the play and burned on. Soon the great dome was a mass of flames. This burned like shavings with the falling timbers.

The house was in session when the fire was discovered and it quickly started. The members saw the probabilities of the fire spreading and they began to save their belongings. The smoke soon drove them from the building and little was gotten out. The officers in the department hurriedly joined the capitol are preparing to move.

1:40--The dome has just fallen. Before it fell one patriotic citizen crawled through the mass of flames and pulled down the flag. He was loudly cheered. Several men were slightly injured by the falling timbers.

2 p. m.--The entire interior of the house is in flames. The water power is still very weak, and every effort is now being made to confine the flames to the legislative halls. The building stands between the department buildings and the capitol are preparing to move.

2:30 p. m.--The fire will be confined to the capitol building. The entire structure is in flames. The fire is in the legislative halls. The dome has fallen. Both roofs have fallen and soon the great pillars at the entrance will fall. The loss is placed at \$1,000,000; insurance \$400,000. The loss of valuable records is great. They can never be replaced.

ANOTHER TREATY.

Great Britain and Venezuela Come to Terms.

Washington, Feb. 2.--The treaty of arbitration between Great Britain and Venezuela will be signed at 5 o'clock this afternoon. The delay in completing the treaty was caused by the difficulty in making up the personnel of the arbitration tribunal to meet, within eight months of the ratification of the treaty, with three months additional allowed for the submission of the counter cases, so that the entire arbitration probably will occupy a year and a half.

SCHOOL BUILDINGS BURNED.

Milwaukee, Feb. 2.--A special to the Wisconsin from Menominee, Wis., says: The Menominee High School and Stout Manual Training school were destroyed by fire this morning at 4 o'clock. Loss on High school \$30,000, insurance \$12,000; Stout Manual Training school \$100,000, insurance \$40,000. Cause of fire unknown.

MAY BE BUTLER'S WIFE.

Napa, Cal., Feb. 2.--Mrs. Nettie Butler, of California, thinks she may be the wife of Butler the murderer, who arrived today on the Swanhilde. She was married to Butler five years ago and lived with him in San Francisco a few weeks when he deserted her. She afterwards heard he went to Australia. She has a boy, three years old by him now in the Vallejo orphan's home. Mrs. Butler has gone to San Francisco to see Butler.

BRANDY

Rare Old Boozee Shipped
Eastward From San
Francisco.

Seven Carloads of the
Famous Naglee Brandies
Sent Abroad.

Western Roads Will Make
Low Rates to the Nevada
Fight.

San Francisco, Feb. 1.—One half of the Gen. Naglee brandy has been shipped East on route to Europe. This brandy belonged to the estate of Gen. Naglee, who made part of it in 1849, and was the property of his daughter, Mrs. Robbins, of San Jose. The shipment consisted of seven carloads. There were 970 packages, averaging forty gallons. It is probably the most valuable shipment of brandy ever made from California. Recently the government gave permission to withdraw from the original packages of 2000 gallons each, in which it could be sold, and put up in twenty, forty and seventy-five gallon packages, replacing the original stamps, and not altering the age. The owners of the brandy will get from the government a rebate of about \$90,000 on the taxes paid.

CHEAP FIGHT RATES.

Southern Pacific Will Make a Big Reduction.

San Francisco, Feb. 2.—Col. C. P. Crocker, first vice president of the Southern Pacific company, was asked if his company would make a reasonable reduction in rates to the Coast-Pacific line. With- out hesitating he replied that he was in favor of making a rate that would induce the largest crowd possible to go, but that several factors had to be taken into consideration. One was the attitude of the Eastern connections of the Southern Pacific in making reduced rates from Eastern cities. And it was to the extent that the Southern Pacific in its own territory, and in the instance, could make reductions without interfering with local rates between California and Nevada. He said: "I realize that it is to the interest of the Southern Pacific as a business proposition to have as many people as possible at the contest. The trip from here to Nevada is an interstate trip. If a reduction is made in the rates a three days' notice must be given to the interstate commerce commission before it can go into effect. Then the reduced rates must be open to everybody, and on that account the travel of the railroad will be increased. Now, will enough people from the East attend the fight to warrant the Eastern roads requesting a reduction in rates in making a reduction from the East. I, for one, do not know. If they request it I am sure they will get it, but not oppose them. But the Eastern roads must decide that matter for themselves, we cannot act for them."

A BAD GREELY.

In Jail in California, a Confessed Horse Thief.

Los Angeles, Feb. 2.—A degenerate relative of Horace Greely the great editor, is now confined in the county jail on a confessed horse theft. Behind his capture is a story of wild, reckless riding by a man, confessed the editor, and the dogged persistence of Frank Griffith, constable of Hanford, who pluckily trailed the gang for five weeks and arrested Greely this morning. Still another member of the crew who followed who is in jail, and the third will soon be apprehended. They are accused of having stolen thirteen head of horses, a little over five weeks ago about fifteen miles south of Hanford and some distance from Tulare City, close to Tulare county line. Griffith, accompanied by Deputy Sheriff White, arrested Greely, and the latter was eating breakfast at his father's house. Greely, who is about 25 years of age, confessed the crime, but refuses to divulge the identity of his partners. His father, who claims to be a cousin of the great editor, said his son only recently had given indication that he was on the wrong course.

NAVAL WORK.

Extensive Repairs in Progress at Mare Island Yard.

Valejo, Cal., Feb. 2.—Work on the gunboat Concord, now undergoing repairs at the Mare Island navy yards, is being hurried so that she may be commissioned about April 1. All work not absolutely necessary has been removed as a safeguard against fire action. Work is progressing on the big cruiser Baltimore also. A new spar deck has been laid and many improvements made below, besides a thorough overhauling of the engines. The cruiser Charleston, which has been tied up at the dock, out of commission for six months, awaiting her turn for repairs, has been hauled up under the big shears, preparatory to beginning extensive repairs on her engines and boilers. This ship was originally fitted with double cabins and especially roomy for the crew, and for use as a flagship, but with the advent of so many large ships, which are available for flagships, it is no longer necessary to have a ship of her size—734 tons, fitted for such duty, and her officers' quarters are to be reduced accordingly, to the size available for a cruising vessel. The cabin space will be much smaller and the officers' state rooms and mess room condensed into smaller space, thus giving much additional room for the crew. A sick bay will also be fitted with all modern improvements. It will probably be nearly a year before the Charleston is ready for service.

INSULTED

When a man wakes up at night with the idea that he is falling down, down from a great height—when he imagines in his sleep that he has lost his breath and can't catch it again—when he tosses and tumbles all night and can't sleep—when his mouth tastes bad in the morning and food is repugnant—death is his bedfellow. These troubles may be trifles in themselves, but they are the skirmishes and sharpshooters that march in advance of the great army of death-dealing diseases.

When a man experiences these sensations and feels generally out-of-sorts, there is but one safe thing to do. That is, resort to the right remedy. Dr. Pierce's Golden Medical Discovery makes the appetite keen and healthy. It builds up and steadies the body active. It builds up and steadies the nerves and insures natural, refreshing sleep. It cures 98 per cent of all cases of consumption, catarrhal, bronchial and throat affections.

Honest druggists recommend it. The druggist who attempts to palm off upon you an inferior substitute, offers an insult to your intelligence.

"Eight years ago I was taken with what my doctor called liver complaint," writes N. E. Kendrick, Esq., of Cambridge, Mass., New Hampshire. "I began doctoring for it, taking any I had a chance at, and I could not get long enough rest. I began taking Dr. Pierce's Golden Medical Discovery, and one of 'Pleasant Pellets' I had no other medicine equal to years in helping me."

Consumption will soon make a bright man dull and an energetic man lazy. Doctor Pierce's Pleasant Pellets cure consumption. One little "Pellet" is a gentle laxative, and put up in twenty, forty and seventy-five gallon packages, replacing the original stamps, and not altering the age. The owners of the brandy will get from the government a rebate of about \$90,000 on the taxes paid.

Key West, Fla., Feb. 2.—Consul Barker, United States Consul Barker, in Cuba Grossly Insulted By Spaniards.

His Official Mail Opened, Read and Copied By the Spanish.

Apology Ordered by Weyler, But the State Department is Notified.

His Official Mail Opened, Read and Copied By the Spanish.

Apology Ordered by Weyler, But the State Department is Notified.

MOUNTAIN IRON MINE.

Legislative Committee Investigating State Relinquishment

St. Paul, Feb. 2.—The joint committee of the legislature that is charged with the duty of investigating the circumstances surrounding the relinquishment of the state by the Mountain Iron mine property and the state's interest in it, held its second session yesterday afternoon at the state capitol. All the members of the committee were present, and three witnesses were examined.

The meeting of the committee, as on last Friday, was held behind closed doors, and members of the committee were cautioned against furnishing any information to reporters, the chairman, scoring the committee as an entire waste of an alleged leak last Friday whereby the reporters received the facts in connection with that session.

The next meeting will be tomorrow afternoon at 2 o'clock, and will be held in the same place. The committee is now in the possession of the Mountain Iron mine property and is in the process of investigating the same. The committee is now in the possession of the Mountain Iron mine property and is in the process of investigating the same.

BABY SHOWS ILLEGAL.

Queer Ruling By a New York State Judge.

New York, Feb. 2.—If the baby show originated by Benjamin W. Hilditch had not been suddenly terminated by the weather last week it would be, by the ruling of Judge Andrews, of the supreme court, last announced, in effect it declares baby shows to be illegal, and the court refused to issue an injunction against the manager for restraining the society for the protection of children from making money out of the show.

The court further declared that the baby show is a violation of the law, and that the manager is liable for the same. The court further declared that the baby show is a violation of the law, and that the manager is liable for the same.

TRAMPS ARE TABOOED.

Drastic Measures Adopted in New York City.

New York, Feb. 2.—From today tramps are ostracized in New York. Everyone found begging is to be arrested and locked up. By arrangement to such vicious individuals, of President Roosevelt with the Council has determined to take certain steps for the exclusive duty of running down beggars. When they are corralled, the charity which will be set for to look them over. The magistrates will be guided by their advice.

Old offenders, who beg by choice, will be sent to the island and made to work. The municipal lodging house is in running order, and men who have no shelter may apply there for a night's lodging. They get a bath, a clean bed, supper and breakfast. Their clothes are cleaned and disinfected.

CHICAGO'S RELIEF WORK.

Chicago, Feb. 2.—The indiscriminate relief of the destitute which has been carried on by the public depots since the past ten days has ceased. Hereafter all applications for charity will be investigated before relief is given.

A PRODUCING FRANCHISE.

Chicago, Feb. 2.—Mayor Swift has signed the general electric railway ordinance, giving the company a 20-year franchise on several South Side streets, including Wabash avenue. By the terms of the agreement the city agrees the largest compensation ever received from a local street railway, the company paying an average of 75 per cent of its gross receipts per year for the life of the franchise. The underground electric system will be used exclusively.

CONDENSED DISPATCHES.

The comparative statement of the government receipts and expenditures for the month of January, 1897, shows the total receipts during January to have been \$2,315,894 and the expenditures \$2,320,235. This leaves a deficit for the month of \$4,341 and for the seven months of the present fiscal year of \$46,821,762.

There is now said to be some doubt as to whether the man captured on Friday at San Francisco, Cal., is George Taylor, the escaped Missouri murderer and outlaw. The man now in custody is said to be a white man, about 35 years of age, with the initials G. T. on his chest. It will be still more prominent in the next issue.

Miss Kate Fay Ewing, who won distinction as "Aunt Katie Fay," the founder of the first children's home in the United States is lying in a hospital in Toledo, Ohio, ill of a disease from which she cannot recover. Miss Ewing is now well advanced in years. She was born in 1810, and lived in Ohio, and was married to a man who died in 1850. She has since lived alone, and has been a great benefactor to the children of the poor.

James Russell, 70 years old, and his wife, 65 years old, were burned to death by a fire in their home in New York City. The fire broke out in the early morning, and the couple were sleeping. The fire was caused by a gas stove, and the couple were found dead in their bed.

At Appleton, Wis., yesterday afternoon, James Schumacher, 10 years old, shot and killed himself with a pistol. The child was found by his mother, who was alarmed by his screams. The child was taken to the hospital, but died before he could be removed.

WARNER'S WORK.

Investigating the Leavenworth Soldiers' Home Scandal.

Leavenworth, Kan., Feb. 2.—Congressman Warner of Illinois, member of the congressional committee investigating the Leavenworth Soldiers' Home scandal, arrived in Leavenworth this morning, and immediately began his investigation. Warner is a member of the committee, and is here to investigate the scandal which has been going on at the Leavenworth Soldiers' Home. Warner is a member of the committee, and is here to investigate the scandal which has been going on at the Leavenworth Soldiers' Home.

STATE SUPREME COURT.

Seven Decisions Handed Down From That Tribunal.

St. Paul, Feb. 2.—Seven supreme court decisions were reported yesterday, three being signed by Chief Justice Start and four by Justice Johnson. They are as follows:

1. H. A. Holcomb, appellant, vs. Independent School District of Duluth, respondent. On appeal from the district court. The court affirmed the judgment of the district court.

2. H. A. Holcomb, appellant, vs. Independent School District of Duluth, respondent. On appeal from the district court. The court affirmed the judgment of the district court.

3. H. A. Holcomb, appellant, vs. Independent School District of Duluth, respondent. On appeal from the district court. The court affirmed the judgment of the district court.

4. H. A. Holcomb, appellant, vs. Independent School District of Duluth, respondent. On appeal from the district court. The court affirmed the judgment of the district court.

IMPORTANT TO SUFFERERS.

HOW YOU MAY OBTAIN A LASTING CURE FOR PILES.

No Surgical Operation, No Pain, Trifling Expense—A Simple, Harmless Remedy, But It Does the Work.

There are some people who have piles as frequently and regularly as other people have colds.

Any little local trouble will bring them on, any extra exertion, as in the case of a soldier, will produce them, and in fact will often appear without any apparent provocation. Piles, however, are much more serious than a cold, as the tendency is always to grow worse, and the trouble becomes deep seated and chronic, and develops into some fatal rectal disease.

While there are many pile remedies which give relief, yet there is but one which not only gives instant relief, but at the same time makes a permanent cure. This is the well known Pyramid Pile Cure.

This remedy is composed of simple, harmless, vegetable ingredients, but combined so effectively and so thoroughly that it cures piles, whether internal or external, bleeding or itching.

In long standing cases the Pyramid Pile Cure has proven to be the only remedy which cures piles, and its advantages over any other remedy are so many, that it is a pity that it is not known by all who suffer from this disease.

The Pyramid Pile Cure is a simple, harmless, vegetable remedy, which cures piles, whether internal or external, bleeding or itching. It is a simple, harmless, vegetable remedy, which cures piles, whether internal or external, bleeding or itching.

BANK QUITS BUSINESS.

Oakdale, Wash., Feb. 2.—The First National bank has posted the following notice on its doors: At the annual meeting of the stockholders of this bank held Jan. 12, it was unanimously voted to go into voluntary liquidation. All depositors are requested to call and get their money. This is the old bank, and although it has had its share of the business, the profits were small.

BANK ORDERED CLOSED.

Moscow, Idaho, Feb. 2.—The Moscow National bank has been closed by order of the court, under instruction of the court, on account of the failure of the bank to pay its debts.

What is

Castoria

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrup and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria is the Children's Panacea—the Mother's Friend.

Castoria destroys worms, allays feverishness, cures diarrhea and colic, relieves teething troubles, and cures constipation. Castoria contains no paregoric, morphine, or opium in any form.

"For several years I have recommended Castoria, and shall always continue to do so as it has invariably produced beneficial results."

EDWIN F. PARDEE, M.D., 12th Street and 7th Avenue, New York City.

"The use of Castoria is so universal and its merits so well known that it seems a work of supererogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach."

CARLOS MARTIN, D.D., New York City.

PRICE

General Manager Warren
Says a City Representative
Tried to Bleed Him.

Was in Connection With the
Ordinance Prohibiting
Use of Salt.

Council Meeting Devoted to
Incident Routine Matters
Occupying Attention.

Who is the man who tried to use the "salt ordinance" as a club with which to sand-bag the street railway company? General Manager Warren, of the company, told the council, at the caucus yesterday, that he had been approached by some person who announced himself as clothed with authority to investigate and report on the matter of the use of salt on the car tracks in behalf of the council committee having the ordinance in charge. This person, who, Mr. Warren said, described himself as a veterinary surgeon, intimated that a "consideration" might affect the tone of his report, and when the "consideration" was refused, threatened to "salt" the company in retaliation.

On a demand being made by Alderman Harwood that the name of the person be given, Mr. Warren said he would furnish it should the person in question attempt to make a report. In detailing the circumstances, Mr. Warren said that similar occurrences have not been rare, although having often been made to bleed the company by persons having an alleged pull.

Up to a late hour today, no member of the council has been known to have practiced the profession of veterinary surgery.

In connection with the question of the use of salt on the tracks, Mr. Warren said that experience has shown that it is necessary to the operation of electric street railway systems under certain conditions, there being no other way, so far as has yet been discovered, of breaking the film that forms over the rails at times, preventing the proper contact. He felt sure, from the experience of other cities, that the enforcement of the ordinance would so interfere with the running of cars in winter storms that general dissatisfaction would result and the repeal of the measure be demanded.

Alderman Coventry moved that the measure not pass, being opposed by his constituents, who said he had a petition with 15 names demanding its passage. The matter was referred to the committee with power to act.

MEETING WAS DULL.
The council meeting of the evening of incident, the "salt" ordinance did not come up, having been referred to the committee. The meeting was dull, and the afternoon and hence the sensational charge made at the caucus by Manager Warren, the street railway company, was not discussed nor the matter alluded to in any way. The identity of the man who tried to sand-bag the company is, therefore, still unknown.

The ordinance repealing the ordinance granting the Duluth Transfer Railway company the right to cross the north side of Pine avenue with its tracks was passed by an unanimous vote. It was explained by Chairman Crandall, of the ordinance and judiciary committee, that the repealing ordinance is merely for the purpose of laying a foundation for quo warranto proceedings against the receiver.

There was some discussion over a resolution introduced by Alderman Crandall, instructing the city attorney to prepare a bill to be presented to the legislature providing for the appointment of water works in cities of 20,000 or over, and finally the matter went over for one week.

Alderman Stevens took the same view. He said the city is well enough supplied with lumber of that nature and moved to lay the board on the table for a week.

Alderman Olafson took the position that action in the matter at this time may be a waste of energy in view of the possibility of a revision of the municipal regulation by a charter board, when the question may be considered.

Alderman Harker said the city needs such a board and he thought action should be made for it at once. The city attorney, however, informed the council that there was no need of further legislation on the subject unless it is desired to take the matter into the hands of the council and turn it over to such a board, as the present charter provisions cover the ground otherwise, and Alderman Stevens motion prevailed.

THE HYDRANT RENTALS.
Among the communications was one from the mayor transmitting a notice from the Central Trust company of New York, trustee for the holders of the first and second mortgage bonds of the Duluth Gas and Water company, notifying the city to pay to the first named instead of to the gas and water company all hydrant rentals and other moneys accruing to the latter under

DYSPEPSIA, DIZZY, WEAK.

Dr. Greene's Nervura Made Him Strong and Well.

Mr. Joseph E. Hood, 129 Front St., Woonsocket, R. I., says: "I felt weak and dizzy in the morning and my stomach would not digest well, and made me feel so it would burst. I had excruciating pain in the pit of my stomach at times."

If afflicted, use Dr. Greene's Cathartic Pills with the Nervura. Dr. Greene, 35 West 14th St., New York City, the most successful physician in curing nervous and chronic diseases, can be consulted free, personally or by letter.

"I used Dr. Greene's Nervura blood and nerve remedy, and every dose gave me relief. The moment I took it, the pain in my stomach all day—in fact, I feel like a new man. I would not be without Dr. Greene's Nervura blood and nerve remedy in the house."

His contract with the city. The matter was referred to the city attorney. The board of public works reported that it had awarded the contract for the smaller sizes of valves to the Michigan Brass and Iron works, and referred the bids on the larger sizes to the council. The Duluth Brass works is, it was stated, the lowest bidder on the latter, but the type of valve proposed to be furnished by it, is not satisfactory to the engineering department. The board also explained that the Rousselle bid had been referred to the water works committee.

The city attorney sent in a communication asking for more light on the resolution. He asked that the committee look up and report on claims against city property for taxes and other causes. He set forth that, besides being indefinite, the resolutions imposed on his department considerable duty of a ministerial nature, which belongs to other departments, and, further, that it called for an interference with the affairs of the school board, which is a separate municipal corporation, and the park board, which has its own independent board.

A communication from the militia was received asking that the city committee on the militia be authorized to expend in furnishing the quartermaster's and company rooms at the city armory. The committee reported that the militia was authorized to expend in furnishing the quartermaster's and company rooms at the city armory.

Resolutions were passed granting permission to fence Franklin square, occupied by the life-saving station, by constructing the board of public works to contract with the Gogebic Boiler works for enclosing the square with a fence, and allowing the city to pay for January, amounting to \$20,000.

Pat Cooley's claim for overcost and profits, amounting to \$15, lost in the dynamite explosion at Lakewood, was turned down.

The trustees of the Congregational church at New Duluth sent in a communication setting forth that the church foundations have been undermanned, and asking that the assessment be reduced to \$12.50, he related a statement in a transcript of the supreme court judgment for costs in the Baumgartner case, amounting to \$36, with a request that it be paid. Referred.

Alderman Dahl called for a report from the waterworks committee on the measure submitted by him for the extension of the water works to the main on Superior street, between Twenty-third and Twenty-seventh avenues east.

Chairman Harker of the committee said the committee could not recommend the measure, in view of the fact that some time would elapse before the pipe is ready and that, meanwhile, the trench would remain open, blocking the street, and that it would have to be shored up to prevent its caving in when a thaw came.

Alderman Dahl explained that his object was to provide work for men during the cold weather.

Some of the other members supported Dahl and the water works committee, that one of the long drawn out discussions for which the council is somewhat noted was over.

On motion, a committee of four was appointed, consisting of Alderman Stevens, Olafson, Harker and Crandall, to act with the mayor in the matter.

The committee will take no action until the return from New York of the members of the bridge company. The committee from Superior arrived late and took part in the discussion beyond making a few remarks explanatory of what had been done by the people across the bay.

STANDS AT THE HEAD.
Aug. J. Boggs, of the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the best I have ever used. It is a sure cure for Coughs and Colds. I cannot say enough for its merits. Dr. King's New Discovery for Consumption, Coughs and Colds is not an experiment. It has been tried for a quarter of a century, and today stands as a proven remedy for all lung troubles. I can cheerfully recommend it as good for the above disorders."

ORGANIZED CHARITY.

The Unity Club Discussed it Last Evening.

At the Unity club last night the subject for discussion was "Organized Charity," and this timely topic was well and thoroughly dissected by the speakers and in the discussion which followed the opening papers.

The sentiment of the speakers generally seemed to be that indiscriminate giving without investigation was a curse rather than a blessing to its object. The true charity consisted in giving only when it was necessary and helpful. Each speaker took much the same ground on this question. A curious coincidence was that each paper was acknowledged to be indebted to "Warner's American Charities" for many of its facts and figures.

Rev. C. H. Patton read the first paper. He said that although necessary was a system of well-guarded consultation and co-operation, England and the United States awakened about the same time to the dangers of having a multitude of societies in the same field. It was discovered that the "good" work of the various societies was being done in a haphazard way, and that the same work was being done over and over again.

There is a contagion to pauperism. An honest workingman sees his begging neighbor return laden with a day's spoils often more than he is able to earn, and he becomes imbued with a desire to emulate his neighbor in his efforts to make a living without work. The source of much abuse was the fact that the multitude of societies overstepped each other, and it was possible for a mendicant who knew the way to obtain aid from a number of different organizations. Though America and England discovered these evils about the same time the latter was the first to take steps against it. These steps were successful, and the work was first begun in America at Buffalo in 1875. The idea took root and rapidly spread until today most of the large cities have their Associated Charities.

The work of these societies is concentrated on the right roads. First, the consideration of the needs of all the poor, and the prevention of overlapping; second, maintaining knowledge of the needs of the poor; third, securing relief for all worthy cases; fourth, guarding against the importation of pauperism from other cities; fifth, finding work for the unemployed; sixth, bringing rich and poor into friendly relations; seventh, prevention of pauperism by the education of the public as to charities; eighth, supplying paupers with good food; ninth, securing relief for the poor in many cases; and tenth, the idea that the public is to find permanent relief for the poor in the city.

Among the Catholic societies that St. Vincent de Paul has branches in all the churches and does a good deal of work. St. Anthony's society is composed of women. The hospitals, St. Luke's, St. Mary's and the Women's hospital are not primarily charitable, but they are in a sense. Add to these the work of the churches and we have the charitable work of the city aside from that of the county and the individual.

The county superintendent averages fifty-six applications per day, and in December it spent a little less than \$500. In 1885 it expended \$300,000. In 1886 it expended \$300,000. In 1887 it expended \$300,000. In 1888 it expended \$300,000. In 1889 it expended \$300,000. In 1890 it expended \$300,000. In 1891 it expended \$300,000. In 1892 it expended \$300,000. In 1893 it expended \$300,000. In 1894 it expended \$300,000. In 1895 it expended \$300,000. In 1896 it expended \$300,000. In 1897 it expended \$300,000.

The Associated Charities of Duluth abolished its efficacy by asking an appropriation from county which made it an adjunct of the superintendent of poor. There is no co-operation in Duluth at present. The Bethel, the Relief society and the county may be all aiding the same parties and no one is any the wiser.

Miss Markell made a graceful address on the subject, endorsing what had been said before and adding new and thoughtful ideas of her own. She said that the science of charity was yet in its infancy, and that its work was yet largely experimental. The most interesting part of her work was the work she did to be of outdoor relief, which, she said, was the most important part of the work.

USE HORSFORD'S ACID PHOSPHATE.
Dr. J. Cressey, Hot Springs, Ark., says: "I have proven highly satisfactory results in dyspepsia and nervous debility, and I can cheerfully recommend it as good for the above disorders."

A PIE

Is Never Good Unless Properly Made.

A gentleman remarked that he had heard so much of Postum, the grain coffee, that he concluded to try some at his house.

When it was served at the breakfast table it was a disappointment, and was not a few days later, at a clock dinner with a friend, the cup of coffee served was dark, rich and fragrant. After drinking a few sips, the contents of the cup he was asked by the hostess if he ever used Postum, the health coffee, and his reply was that he had tried it once and didn't like it. It was difficult to make him believe that he had just drunk a cup of it. "Is it possible that this delicious beverage is Postum? How do you make it?"

The hostess then remarked that it was her experience that cooks quite generally blundered when preparing a new article for the first time. "But if you will insist on their boiling Postum fifteen minutes, boiling, not just drawing a cup of it, it is possible that you will find it to your advantage to let our family, children and all, could not get on without it."

A reliable grocer will never offer a cheap or weak imitation of a genuine original article because he happens to make a little extra profit. But it is well valued by the great majority of citizens, and it is the desire of the makers that it be known favorably to all. Made at Battle Creek, Mich., by Postum Cereal Co. of America, Inc.

HIGH FREIGHT RATES.
To the Disadvantage of St. Louis County Settlers.

To the Editor of The Herald: I have seen your paper of a recent date and article on the extortionate freight and passenger tariffs of the Duluth & Iron Range railway and the Duluth, Northern and Western. I am a settler on the north side of Lake Superior, and have been compelled to ship my goods to Duluth, and have paid a freight of \$1.00 per hundred pounds, and a warehouse charge of \$1.00 per hundred pounds, and a handling charge of \$1.00 per hundred pounds, and a delivery charge of \$1.00 per hundred pounds, and a total freight of \$4.00 per hundred pounds. This is a most unreasonable rate, and I am sure that you will find it to be the case in many other instances.

The Arbitration Treaty.
A week ago Sunday Rev. P. C. Southworth preached a sermon directed against the arbitration treaty. The church has adopted the following resolutions in reference to the matter.

Resolved, that we hail with joy the arbitration treaty, which will secure the peace of the world, and we believe that it will be a blessing to the world, and we will support it to the utmost of our power.

Maggard Busts Coal Combine.
We have on hand 474 tons of the very best grades of regular sizes of coal which may be sold at a price that will cause you to buy. Call and be convinced. DULUTH VAN COMPANY, 212 West Superior street.

Coal at Bottom Prices.
As this company proposes to give its customers the benefit of low prices, which may vary from time to time, better apply at its office on the day you desire purchasing.

PIONEER FUEL COMPANY.
325 West Superior street.

Canon Pentreath Ill.
Rev. Canon Pentreath, of Brainerd, who was known in Duluth for several years, and at times was very well known, died at his home in Brainerd, Minn., on Sunday last, at the age of 60 years.

An Ice Carnival.
The Union rink has been engaged for a grand ice carnival, which is to be given some time this month. It will be made a great social event, and a program of great interest will be arranged.

SKINS ON FIRE
When these aches and pains trouble you, and your skin is itchy, and your face is red, and your eyes are sore, and your head is aching, and your stomach is full, and your bowels are constipated, and your nerves are all out of order, and your system is all out of order, and your health is all out of order, and your life is all out of order, and your soul is all out of order, and your spirit is all CITY BRIEFS.

Cullum, dentist, Palladio, Phone No. 9. Smoke Endion clear. W. A. Foote. W. H. Casner, the clear man who operated here at one time and recently got into trouble at Superior, is serving a sentence of sixty days at Superior.

There is great need of men's second-hand clothing, underwear and shoes at the hotel. Packages will be sent for by the superintendent, C. E. Robel, if word is sent to him.

Services are being continued nightly at the Second Presbyterian church, and a number of new members are expected next Sunday morning. Rev. A. H. Carver, of Lakeside, is to assist the pastor this evening and Wednesday evening.

The ladies' guild of St. Luke's mission, which meets the first and third Wednesday of every month, will meet this week with Mrs. Doney, 264 West Fourth street.

Order your carry-all at Downie's. Duluth Trunk factory removed to 220 West Superior street, Herald building. The report of the building inspector Robinson for January shows that the building for the month was very light, the total value of the building and repairs for which permits were taken out being \$1550.

The postponed meeting of the Historical and Scientific association will be held at the High School Friday night. Interest in the association is rapidly growing, and the collections already gathered in the new room add not a little to that interest. A large number of teachers have promised to join for the educational advantages to be gained.

The public schools have two holidays this month, Lincoln's birthday on Feb. 12, and Washington's birthday Feb. 22. They will be generally celebrated by exercises.

The regular meeting of the school board will be held Saturday evening. So far nothing of importance is expected except the monthly bills and pay rolls.

The DeVore case in district court was adjourned yesterday afternoon to Saturday, when it will be argued.

The superintendent's department of the National Educational association meets at Indianapolis, Feb. 17 and 18, and Superintendent R. E. Donnell, who was secretary of the meeting last year, will probably attend and take part in the session.

The fact that Dr. Hillis has cancelled his engagement to lecture at the First Methodist church will enable a large number to hear Eugene May tomorrow night, who could not otherwise have heard him.

The following births have been reported to the health department: A daughter to John and Mary Church, of 256 Tenth avenue east; a son to R. B. and Sophia M. Knox, of 1311 East Superior street; a son to John and Mary Johnson, of 267 West Sixth street; a daughter to John and Matilda Danielson, of 412 Tenth street; a son to Fred E. and Anna E. Watts, 1820 1/2 London road.

The Clerk Richardson has caused a blackboard to be put up in the council chamber at the city hall, on which reports will be given as they are received.

The Phenological society of Duluth has their regular meeting Wednesday evening at Northern hall. Professor Gustav Jurgens will give a talk on "The Anatomy of Brains." Everybody Duluth's best clothes cleaner, Kelly.

PERSONALS.

Among the Grand Rapids people here today on route to the immigration convention at St. Paul are: Rev. C. V. Canache, W. E. Nott, J. J. Decker, William Buchanan and J. H. Dunne. Some of the Duluth county delegates went by Clouet.

J. J. Boche, cruise for J. W. Day & Co. came from Grand Rapids this morning on his way to Minneapolis, where he will visit home for a few days.

Mr. and Mrs. Thos. Dunson leave today for Santa Rosa, Cal., to remain.

Frank F. Leach underwent the operation for appendicitis performed upon him yesterday very successfully, and his speedy recovery is looked for.

Andrew Erwin, assistant attorney general, came up from St. Paul this morning. He is at the St. Louis.

F. L. Kinney, of Minneapolis, traveling freight agent of the Chicago, Milwaukee & St. Paul road, is in Duluth today.

Sam Simpson is up from Minneapolis today.

William Wood, the Brainerd lumberman, is at the St. Louis.

T. A. Cross, of Pittsburgh, Pa.; W. H. Warner, of Cleveland, O., and George A. H. of St. Paul, returned today from a trip over the Iron Range, where they have been looking over some lands.

J. G. Ketchum, of Tower, is at the Spaulding.

T. F. Cole, of Negaunee, is among the guests at the Spaulding.

W. W. Manning, of Marquette, is in the city a guest at the Spaulding.

J. Roman is down from Virginia today.

J. McNair, of Little Falls, is in the city a guest at the Spaulding.

T. A. Cross, of Hubbard, is a late arrival at the Spaulding.

M. Philbin, general superintendent of the Duluth, Superior & Western, returned today from Marquette, where he has been attending the city school.

A. Hamilton, secretary of the Duluth Lumbermen's association, is in Saginaw, Mich., on a short visit.

John Promberger will leave for the East today to be gone about two weeks.

J. J. McTearney, who has been ill the past five weeks, is out again.

\$500 to loan on improved property. N. J. Upham & Co., Torrey block.

BOTTLED BILL FAVORIT. Washington, Feb. 2.—The senate committee on finance today decided to report favorably on the so-called bottled bill which has been pending here. This bill is desired by the distillers and opposed by the bottlers. The report was not unanimous, and may be opposed by some members of the committee in the senate. The bill provides for the bottling of spirits in distilleries. The bill was amended so as to extend the privileges to the distillers as well as the distillers of spirits. The spring season is defined to extend from January to July and the full season from July to January.

ELECTION.

Little Stir on the Surface But Large Vote is Expected.

Circular Defamatory to Fred Voss Caused More or Less Feeling.

Claim Made That It Violates the Law Against Circulating Doggers.

That it would be a very quiet election were the indications at noon today. Reports from the various precincts up to that hour were to the effect that voters were getting to the polls early, and it was estimated that nearly the full vote would be polled. The total registration is 4232, and it is thought that from 3500 to 4000 ballots will be cast.

There was some trouble in the Second and Third wards over the circulation of a dogger purporting to have been signed by certain signers of Fred Voss's petition, denying that he had signed, as a committee, a circular issued in Voss's behalf to the voters of Duluth.

It was an unadorned attempt to discredit Mr. Voss by making it appear that he had used the names without authority, whereas, in his circular, it was merely stated that they had signed his petition, not that they had caused the circular to be issued, either as individuals or as a committee.

The Voss people got wind of the ruse early in the day and took the trail of those who were peddling the dogger. Most of the latter seemed ashamed of their business when overhauled. Many of them said they had undertaken the dogger, and were not misrepresenting as to the purpose of the doggers.

One gentleman who was earning \$1 or \$2, presumably, by acting as a distributor, when he saw some of Mr. Voss's friends approaching, hastily deposited his bills in the street and strode up an alley.

The Voss workers were reinforced by many who did not vote for him, but who announced that they were against such despicable methods.

The distributors of the literature are liable to a penalty under the election law. Several names were taken and the parties for them may follow. There were several near approaches to an exchange of blows over the matter, but the safety valve of talk and, so far as known, no harm is worn in memory of the occasion.

This dogger appeared from the office of the Star Tribune, and it is indignant whose names appear on it are indignant. The statement, they say, was signed by some of the Duluth county delegates went by Clouet.

J. J. Boche, cruise for J. W. Day & Co. came from Grand Rapids this morning on his way to Minneapolis, where he will visit home for a few days.

Mr. and Mrs. Thos. Dunson leave today for Santa Rosa, Cal., to remain.

Frank F. Leach underwent the operation for appendicitis performed upon him yesterday very successfully, and his speedy recovery is looked for.

Andrew Erwin, assistant attorney general, came up from St. Paul this morning. He is at the St. Louis.

F. L. Kinney, of Minneapolis, traveling freight agent of the Chicago, Milwaukee & St. Paul road, is in Duluth today.

Sam Simpson is up from Minneapolis today.

William Wood, the Brainerd lumberman, is at the St. Louis.

T. A. Cross, of Pittsburgh, Pa.; W. H. Warner, of Cleveland, O., and George A. H. of St. Paul, returned today from a trip over the Iron Range, where they have been looking over some lands.

J. G. Ketchum, of Tower, is at the Spaulding.

T. F. Cole, of Negaunee, is among the guests at the Spaulding.

W. W. Manning, of Marquette, is in the city a guest at the Spaulding.

J. Roman is down from Virginia today.

J. McNair, of Little Falls, is in the city a guest at the Spaulding.

T. A. Cross, of Hubbard, is a late arrival at the Spaulding.

M. Philbin, general superintendent of the Duluth, Superior & Western, returned today from Marquette, where he has been attending the city school.

A. Hamilton, secretary of the Duluth Lumbermen's association, is in Saginaw, Mich., on a short visit.

John Promberger will leave for the East today to be gone about two weeks.

J. J. McTearney, who has been ill the past five weeks, is out again.

\$500 to loan on improved property. N. J. Upham & Co., Torrey block.

WILL COME AGAIN.

Another Visit From the Superior Curlers is Expected.

The Superior curlers are expected to visit the Duluth men again Friday evening and will probably bring six rinks over. The Duluth men will prepare to win this time. All the best curlers are here now and some strong games will be put up. Superior has won the two times that their curlers have come over this year and the Duluth men are beginning to think it is about time for them to win some games themselves.

Yesterday afternoon A. H. Smith and Charles McMillan had it out and the former won 12 to 9. Harry Hurdon expects to go to Winnipeg next week to participate in the curling tour, which is to be held Monday. Mr. Hurdon's rink will be composed of J. E. Gullin, lead; Ward Ames, Jr., second; D. G. Cudler, third; Harry Hurdon, skip.

THE POLICEMEN'S BALL. A Great Event and Fine Attendance.

The policemen's ball at the armory last evening was a brilliant event, outlasting the similar affairs that have preceded it, noteworthy as they have been. The hall was tastefully decorated. Rows of evergreens were set longwise of the hall directly under the gallery rails, making of the spaces thence to the walls charming lozenges for the orchestra. Over the platform occupied by the orchestra, at the north end of the hall, the American flag was draped being caught up in the center with a magnificent star. The floor had been waxed until it shone like a mirror and was in perfect condition for the light fantastic.

Most of the evening, tables were thrown open, making, with their elegant furnishings, charming retreats for rest and conversation.

It was 9:30 o'clock when the orchestra sounded the signal for the grand march, which was taken part in by 125 couples, led by Chief Hansen and Mayor Truesen and their ladies. It is estimated that there were nearly 500 people present and that over 200 couples were on the floor at one time. The music was furnished by the orchestra of the Duluth police.

The affair was the result of the relief fund of the Policemen's association.

THEIR QUIET DAY. City Hall Employees Took Things Easy.

Quiet prevailed at the city hall today. The police court mill did not grind, and the office of the clerk of the court was closed. Court officer Jensen sat with his pen in his hand, calling himself and several listeners with tales of his campaign on the memorable occasion when he went to West Duluth to replenish a sewing machine, and was returned in the patrol wagon.

This side up-handle with the assessor's office was open, but his monthly reports had to be made up, and he was forced to get down and bone, being cheered by the clerks who put their heads in between his arms and expatiated on the horror of a slave's life.

GRINDING.

The Demand For Lower Freight Rates on Range Roads Increasing.

Independent Owners of Mines on Both the Ranges Are Interested.

With Reduced Ore Carrying Charges They Could Develop Their Properties.

A well known independent mine owner said to a Herald man today:

"Owners of iron mines and iron mining land on the Vermilion and Mesabi ranges are perhaps more directly interested than any other class in the fight now being waged with the range railroads for just and equitable freight rates. They feel that the value of their holdings depends almost entirely on the success of the movement inaugurated by The Evening Herald for legislative interference, for without a radical cut in the charges demanded for transporting ore to Duluth or Two Harbors, the mines owned and controlled by the owners of the two ranges will be unable to compete with the practically monopolized business."

"While nominally the railroad companies receive the same rates for hauling iron ore as they do for other freight, they are in fact able to charge by them as from others, the freight charges are taken from the pockets of the stockholders of the railroad companies, and the same is true of the corporations and transferred to the pockets of the stockholders of the railroad companies."

"The assessor's office was open, but his monthly reports had to be made up, and he was forced to get down and bone, being cheered by the clerks who put their heads in between his arms and expatiated on the horror of a slave's life."

IT WAS SUFFICIENT.

Interesting Decision in a Land Case.

The decision of the secretary of the Interior in the case in re Nancy Desmond was received here today at the United States land office. The lands are in section 24-68-20. Nancy Desmond applied to enter the lands under the timber and stone act. She admitted that she had never seen the land, but offered testimony as to its character from an expert woodsman whom she sent up there. The rules required personal examination, but the local officers thought she had taken a better method of ascertaining its character than if she had viewed it herself, and received her application. The general land office refused to allow it. She appealed and the secretary reverses the commissioner and gives her the right to prove up.

The local officers have decided the case of Henry Soltan vs. the heirs of John Moore. The claim was that Moore abandoned the land before his death and that his heirs failed to continue the improvements as required by law. The contest of Soltan is dismissed.

PRISONERS SENTENCED. Penalties For Crimes Were Pronounced Today.

Judge Ensign this afternoon sentenced seven of the prisoners convicted at the present term

Degree of Honor Lodge, Auxiliary to A. O. U. W. Organized Last Night.

Hugo Iron Works Has Delivered Ten Sections of Force Main Pipe.

Kindergartners Will Entertain at the Irving School Tomorrow Afternoon.

A lodge of the Degree of Honor, an auxiliary of West Duluth lodge 148, A. O. U. W., was instituted in Gilley's hall, Saturday night, by Mrs. L. H. Hantor, of Wilmar, grand chief of honor of the state of Minnesota. Forty-five members were initiated, more than half of whom were ladies. Following are the officers of the new lodge: Past chief of honor, Dr. L. T. Burnside; chief of honor, Clara A. Burnside; lady of honor, Mrs. Carrie Silger; chief of ceremonies, Mrs. Laura Merritt; recorder, Rose Murphy; treasurer, Mrs. Minnie A. Fox; usher, Mrs. Sarah Anderson; inside watch, Mrs. Carrie Hilt; outside watch, T. E. Mayo.

The next meeting of the new lodge will be held at the same place Saturday evening. All members of West Duluth lodge A. O. U. W. are eligible to membership, as well as the wives, sisters, daughters, mothers and widows of United Workmen. The degree of honor is a social as well as a beneficiary order, and carries with its membership an insurance of \$1000, in addition to the \$2000 which members of the A. O. U. W. have on their lives.

TEN SECTIONS DELIVERED. The Hugo Iron works has already delivered ten sections of the force main pipes for the new waterworks pipe, and is making new deliveries every day. As long as the good sleighing continues the pipe will be hauled to the Lakeland, sleighs, but as soon as the roads become to get bad the railroads will doubtless be utilized as a means of transportation. Thirty-five men are now employed in the manufacture of the pipes.

KINDERGARTNERS ENTERTAIN. Irving and kindergarten kindergartners will entertain at the Irving kindergarten rooms, Friday afternoon, from 2 to 5 o'clock. Miss Charles, principal of the kindergarten, and Mrs. Ensign and Lennon will speak on the subject, "How Parents and Teachers Can Help Each Other." Mesdames Thompson, Grey and Wendicks will read papers on "Hygiene of Home and School," "The Music and Light Refreshments," and a social good time is expected. All parents are invited.

O. U. W. BALL. There will be a very large attendance at the ball to be given tonight in Great Eastern hall, under the auspices of the West Duluth lodge, A. O. U. W. The benefit of Edward Warner, who a short time ago, lost nearly all of his earthly belongings in a fire, if the advance sale of tickets indicate anything. There will be an orchestra of eight pieces to furnish the music, all of the musicians volunteering their services.

NOTICE TO HERALD READERS. Persons having communications, announcements or news items of interest to West Duluth readers of The Evening Herald, will please leave them at the office of L. A. Barnes, Room 3, Manufacturers building, and they will be given prompt attention.

WEST DULUTH BIFIDES. Mrs. I. B. Kenney is confined to her home by quite a severe illness. Physicians in West Duluth report several cases of chicken pox, and the mild disease seems to be spreading, especially among children. Rev. A. F. Elmquist will conduct a prayer meeting tonight at the home of C. L. Anderson, and another tomorrow evening at the residence of Mrs. August Skogs, New Duluth.

The furniture and fixtures of the defunct Manufacturers' bank are being moved from the old building to the new one, to make room for the stock of Mr. Hendricks, who will occupy the room with his dry goods line.

Refreshments will be served Thursday evening at the covered rink for the ladies of the Ashbury M. E. church.

West Duluth Covered Rink. Band concert Thursday night. Admission 10 and 15 cents.

PROVED HE LOVES HER. Baltimore News: And it came to pass that the most beautiful woman upon the Glorious Girl while her cheeks were red, and he spoke unto her, saying, "Fairer creature upon earth, wilt thou be my beautiful bride?"

And the Glorious Girl made swift answer, saying, "Not, O Roginold, not until you have given me positive proof that you love me."

And the face of the Glorious Girl was even as the wild will of the untrodden forest for coyness, but her voice was like unto the tax collector's for firmness.

And the Meek-eyed Youth looked him far away into the beneficent, for a great fear was he in to end it all. And it came to pass that in that darkest moment a great light dawned upon him, and he spoke unto the Glorious Girl, saying, "Lost, peradventure, thou misunderstand me, again I do say, be my beautiful bride. As for proof, that I love thee, fair one, let me draw your attention to the fact that Christmas is more than four weeks hence—dost you mind me?"

And straightway the Glorious Girl nestled close to his more or less manly breast, and even as she nestled, she spoke, saying, "Thou art indeed brave. Most men would have waited until after Christmas, but you—such! You mustn't mess my hair dear."

A LUCKY "SPEC." Portland, Me., special to Boston Herald: Several days ago the schooner Robert I. Carter struck on Alden's rock, and to all appearance was wrecked. Naval experts agreed that she would sink in a few days, and the schooner was stripped for the bulk to Charles Barrett, of this city, who bought it for \$20 on "spec." Last night's wind and tide floated the schooner off, and to the amazement of the sailor, she was towed up the harbor. Barrett had her towed in a cargo of 320 tons of coal, most of which is salable.

Wheat Prices Went Down Today After Opening at an Advance.

Heavy Selling By the Scalpers at Chicago Caused the Weakness.

Reports of Winter Wheat Damage and a Rise at Liverpool.

Wheat suffered a slight decline today. It opened quiet but steady this morning at a shade over yesterday's closing price.

The strength came from Liverpool which for once responded readily to the advance on this side. Northwest receipts were moderate, Minneapolis and Duluth reporting 221 cars, against 192 last week and 116 on the corresponding day last year.

The strength did not hold, however, as heavy selling by the scalpers, and the price declined. After noon it was quiet, and the market was more bullish than in the morning.

Damage reports from Liverpool, which for once responded readily to the advance on this side. Northwest receipts were moderate, Minneapolis and Duluth reporting 221 cars, against 192 last week and 116 on the corresponding day last year.

Duluth temperature at 5 a. m. today, 20; maximum yesterday, 21; minimum yesterday, 20.

Local forecast for Duluth and vicinity: Snow or rain tonight and Thursday; no decided change in temperature; northeast winds probably shifting to northwest.

THE ELECTION'S RESULTS.

The people of Duluth have reason to congratulate themselves upon the result of yesterday's election. Largely in consequence of the mud-throwing indulged in by the News Tribune, all but two of the Republican candidates were defeated, and among the candidates who failed of election were several who would have faithfully and ably served the city. They must thank their party organ for their defeat.

Mr. Voss will be city treasurer for two years more at least. He made a splendid run, getting two votes to his opponent's one. There is no doubt that his vote was largely increased by the despicable campaign that was waged against him by the News Tribune. He was vilified, abused and misrepresented; unfounded stories were printed about his actions as treasurer; his efforts to preserve the credit of the city were classed as evidences of bad judgment or worse, and he was insinuated to be cast at him by the cowardly traitor. The people know Fred Voss as an honest, faithful and efficient public official, and they rallied to his support and by an overwhelming majority expressed their emphatic disapproval of the tactics employed against him.

The election of Mr. Lovett must be extremely gratifying to that gentleman and to his many friends. In a three-cornered fight he won out handsomely. The people have made no mistake in electing Mr. Lovett to the comptrollership. He will be a most efficient official. Mr. Lovett is highly deserving of this mark of confidence by the citizens of Duluth, because he has been a large taxpayer, a progressive, enterprising citizen, ever foremost in every movement which had for its object the upbuilding of the city, and always ready to guard the city's interests. He has in past years expended his own money freely to advertise the city. No man, except possibly the late M. B. Harrison, ever did so much to present the advantages of Duluth to capitalists and investors, and the results of his work along this line are to be seen on every hand.

It is evident that the city will have a first-class board of aldermen. While several worthy candidates for aldermanic honors went down to defeat, the next council, as a whole, will compare favorably at least with any of its predecessors. Many important questions affecting the welfare of the city are awaiting settlement, and the members of the council this year have a high task ahead of them. The Herald trusts and believes that they will act wisely in the settlement of these problems, and that the close of the year will find a material advance made in several matters affecting the welfare of the city.

The McLaughlin brothers are a power in Mississippi politics. A. J. McLaughlin is governor of the state, Sylvester McLaughlin is district attorney, Dr. McLaughlin is prominently connected with the state board of health, R. L. McLaughlin controls the levee system of the state, Walter McLaughlin is warden of the penitentiary, W. K. McLaughlin is

district judge of the Vicksburg circuit, Wallace McLaughlin is inspector of minerals of Idaho and Sydney McLaughlin, the youngest, is private secretary to the governor. These eight brothers have had complete control of Mississippi politics for the last ten years.

FREE HOMESTEADS.

Discussing the prospect that the free homestead bill will become a law, either at this session of congress or the next, the Beltrami Eagle says: "When it does become a law it will be of great importance to Beltrami county, for there are hundreds of desirable homesteads yet to be had, especially south and east of Red Lake. People taking claims need not worry about having to pay for it, as the chances are that any ceded lands will be free hereafter. When spring comes our county will witness the largest influx of settlers any new country ever had. First to come will get first choice, but as the territory is so large to select from no one can monopolize it all. Now watch the northern part of Minnesota develop and what not, with a productive soil, millions of the best timber, splendid water, abundance of grazing lands. Not saying anything of its untold wealth in minerals or its central location to markets, nothing can prevent it from becoming the richest part of our commonwealth."

The settlement of this rich section will have a great effect upon the growth of Duluth. Just as Chicago grew and prospered with the settlement of the territory tributary to that city, so will Duluth increase in population and business as the lands of Northern Minnesota become settled and developed. What is needed now is railway extension from Duluth westward into the rich section now largely uncultivated, but there are indications that the coming summer will witness the building of one or two lines that will carry settlers there and furnish a means of shipping their products to market.

ANGRY AT "THE CZAR."

According to William E. Curtis, the usual accurate Washington correspondent of the Chicago Record, there is a great deal of indignation among members of the house of representatives at the arbitrary manner in which Mr. Reed controls legislation, and the talk about another man for speaker of the next congress is revived. The big man from Maine is czar with absolute power, and the rules of the house, by adopting those rules the members have tied their own hands. They intrusted this authority to him, and now they are kicking about it. They say that he will not permit the consideration of any measures except those in which he has a personal interest. But that, says Mr. Curtis, is not true. Mr. Reed is trying to keep down appropriations. His policy is economy, and he is working with the appropriations committee for that purpose. He remembers the talk about the "million dollar" congress, of which he was the speaker six years ago, and does not like to hear it repeated. Therefore he forbids the consideration of every measure that authorizes an expenditure which is not absolutely necessary, and as "a watch dog of the treasury" he has been a great success than the late Samuel J. Randall, or the immortal Holman.

Mr. Reed does not side with appropriations. There are many bills on the calendar being pressed for passage which do not contain appropriations, but are very important to many localities throughout the country. He has planted his big foot upon these also, and will permit no special legislation. There is very little to be done this session; hardly thirty working days, and Mr. Reed thinks that should be spent so as to secure the greatest good to the greatest number. Therefore he will only permit the consideration of bills for the general welfare. Theoretically this is a very proper scheme, but it does not suit many gentlemen, who believe that the interests of their constituents demand certain legislation which they have proposed, and for which they have received the endorsement of the committee of the house. The revolt is growing every day, and the mutineers are beginning to talk of an organization to defeat Mr. Reed for speaker of the next congress. Hopkins, of Illinois, is the favorite candidate. It is likely, however, that when the next congress meets, the anger of many of the mutineers will have cooled down. Despite all that is said of Mr. Reed's czar-like methods, he makes a splendid presiding officer, and the people are pleased to see him using his great power to curb the tendency towards increasing appropriations that are not warranted by the condition of the treasury. Whenever the revenues of the government increase and the treasury balance shows a comfortable surplus, no one will have cause to find fault with Mr. Reed for preventing liberal appropriations for deserving improvements.

NATIONAL BANKRUPTCY LAW.

A Washington dispatch says: Senator Nelson is keeping exceedingly close watch on the bankruptcy bill and does not propose that any other bill shall displace this important legislation in the senate. It is the regular order after the pending Nicaragua bill is disposed of, but should debate on this be protracted much longer, Senator Nelson will endeavor to have it temporarily laid aside and the bankruptcy bill be taken up. He would have the support in this move of several senators who have been fighting the Nicaragua bill. Senator Nelson says he is in daily receipt of telegrams from business men from all parts of Minnesota urging the passage of a bankruptcy bill, and he intends to use every effort to secure its passage. He will fight any attempt to displace it. Senator Davis has also expressed a desire to hasten consideration of the bill and, while not favoring the Torrey bill in its original form, has intimated that he will vote in favor of it, even if the amendments he desires are not adopted.

The Torrey bill provides for complete equitable relief of voluntary and involuntary bankrupts. If the act is passed any person owing debts to the amount of \$1000 or more will, if adjudged bankrupt, be subject to its provisions. We have had several bankrupt laws. The first was passed in 1800. It was repealed three years later. Another bankruptcy law was passed in 1841. It did not last, however, more than two years. The third act was that of 1867 and it remained in force until 1878. The main reason urged in favor of the repeal of the act of 1867 was that the cost of proceedings under it was excessive. The Torrey bill is not liable to that objection. It is strongly supported by boards of trade and other business organizations in all sections of the country and many prominent business men have been before the house and senate committees to urge its passage.

THE WAY TO DO IT.

Chicago Tribune: A short time ago an indictment was returned against the directors of a great trust known as the American Tobacco company by a New York city grand jury. It was found under the state anti-trust laws. A motion to quash the indictment was made and argued, and was overruled. When it became known in Wall street that the indictment had been sustained, American Tobacco stock fell off. There were not so much dealers in the securities of a trust which may be broken up as there is in the securities of a corporation. This new departure in the mode of dealing with illegal combinations is likely to have a profound effect on other methods which have been tried. Men who will organize trusts unthinkingly when they have only civil suits to apprehend may be deterred when they learn that they are going to the penitentiary for law-breaking.

HOW IT HAPPENED.

The various explanations given by the News Tribune of the defeat of so many Republican candidates yesterday are slightly contradictory. Thus, on the first page today it says: "As there are more Republican votes this spring than of all other parties combined, it is safe to say that Mr. Voss was elected by Republican votes."

On the fourth page of the same issue the following appears: "The scant registration is largely responsible for the success of the men whose constituents rarely fail to register promptly."

Any man who is not satisfied with one explanation of how it happened can accept the other.

DISCUSSING THE PROBLEM OF PRISON LABOR.

Detroit Free Press: There are two objects as to which there can scarcely be any disagreement among the unprejudiced. The first is that prisoners shall be kept at work if for no other purpose than the preservation of their health, which suffers grievously, as all admit, under idleness. The second is that the work done shall be sufficiently remunerative to pay the cost of maintaining the prisoners.

PROFESSOR MAX MULLER SAYS IN THE CURRENT NUMBER OF COSMOPOLIS THAT KINGSLAY WAS A GREAT MARTYR TO STAMMERING.

Professor Max Muller says in the current number of Cosmopolis that Kingsley was a great martyr to stammering and was tortured to learn to keep conversation waiting until he could put his thoughts into words. Singularly enough, in church, when he was reading or speaking, there was no sign of stammering, but on the way home from church he would say: "O, let me stammer now; you won't mind it?"

A CHICAGO PAPER CONTAINS A STATEMENT BY EDWARD ATKINSON THAT, OWING TO THE LIBERALLY OF ANDREW CARNEGIE, THE FORMER'S BOOK, "SCIENCE OF NUTRITION," SHOWING HOW A WORKINGMAN MAY LIVE ON 10 CENTS A DAY, MAY BE FOUND IN EVERY PUBLIC LIBRARY.

The Carnegie workmen, whose wages have been cut, will be delighted to learn this fact.

THREE DENVER BANK OFFICIALS, WHO MADE THE MISTAKE OF OPINION, CONCERN WHOLLY IN THEIR OWN INTERESTS UNTIL THEY HAD USED UP ALL ITS CAPITAL AND ABSORBED ALL ITS DEPOSITS, HAVE BEEN SENT TO THE PENITENTIARY BY A UNITED STATES JUDGE FOR AN AGGREGATE PERIOD OF TWENTY-TWO YEARS.

As a political hoodoo, the News Tribune is a shining success. If it had two days more to keep up its campaign of vilification, not even two of the Republican candidates would have escaped defeat.

THE BELTRAMI EAGLE EXPRESSES THE OPINION THAT IF SPEAKER REED HAD TO GET A LIVING ON A CLAIM AND ENDURE THE HARSHIPS OF A SETTLER HE WOULD NOT SO STRONGLY OPPOSE THE FREE HOMESTEAD BILL.

Postmaster Carr, of Philadelphia, has given gold medals to three managers of postal stations in that city for special efficiency in conducting postal business.

THE PHILADELPHIA PAPERS SAY THAT NO OTHER MAYOR IN THE UNITED STATES HAD OFFICES SO HANDSOME AND LUXURIOUS AS THOSE OF THE MAYOR OF THAT CITY.

A St. Louis judge a few days ago fined a youth \$10 for trying to kiss a girl. It served him right. He should not have failed to kiss her.

AS PREDICTED YESTERDAY, THE NEWS TRIBUNE DID SOME COMICAL TWISTING AND TURNING THIS MORNING WHILE TRYING TO TELL HOW IT HAPPENED.

The people emphatically endorsed City Treasurer Voss. The miserable attempt to blacken his reputation failed ignominiously.

Mr. Lovett will make a first-class comptroller. He is thoroughly competent and will be a popular and efficient official.

And the blow almost killed the morning Republican.

The Republican politicians are more

strongly convinced than before that Fred Voss is a hard man to defeat.

POWERS' REVENGE.

How McCallum and Casserly Were Locked Out.

Minneapolis Times: The State Federation of Labor got after Labor Commissioner Le Grand Powers, author of the "Purchasing Power of Gold" and other campaign documents, and now Powers gets back at the labor people and ousts the federation representatives on the labor bureau staff.

Casserly, head factory inspector of the state labor bureau, a man who has held that position for seven or eight years, under three different governors and two labor commissioners, and has broken into the work all the other factory inspectors, was yesterday notified that his services were no longer required because of his failure to get a certain "mark" in Powers' recent alleged "civil service examination." Alfred McCallum, another labor representative and also a member of the state federation who so vigorously applied the scourge to the present labor commissioner, was likewise notified that he was not well enough versed in the law here to do the work of the office, notwithstanding his two years' experience as an inspector. Casserly and McCallum, besides being members of the State Federation of Labor, are also members of the National Labor Union, and were both active in the campaign, and like Day, they were "pounded" by the labor people.

It has been understood in labor circles that the directors of the labor bureau had a scheme for getting rid of them. The plan was to get up an examination which would stick them. Not being college men, they were not well equipped to handle the examination, and it was thought that they would be able to spare their services on the ground of incompetency.

The appointment was made to rest on a matter of "marks." The advertisement was sent out to the labor people, and the directors, including the two experienced men, were to be examined on a number of points. In an examination of that kind, college boys used to "quizz" and "bam" the labor people, and the labor people, being entirely without practical experience, were to be "pounded" by the college boys. The labor people, however, were not to be "pounded" by the college boys, but by the labor people themselves, who were to be "pounded" by the labor people themselves.

GO WITH THE CROWDS! ATTEND THE THE ONE-CENT STORE BEFORE QUANTITIES GIVE OUT.

BANKERS

Grand Jury Had the Financiers Before It as Witnesses Today.

Believed to Be Investigating the Keeping of the Public Funds.

Two West Duluth Boys Indicted on Charges of Robbery.

The grand jury took another new tack in its investigation this morning, and the body of witnesses waiting in the corridor this morning was of a new character. The names of the witnesses are all familiar to the public, all being connected with one or another of the Duluth banking institutions, dead ones as well as live ones. In the latter case it was one of the chief officials of the bank, and in the former it was the assignee or receiver.

In the party were A. D. Davidson, assignee of the First National bank; A. R. Macfarlane, assignee of the Security bank; William E. Lucas, receiver of the Marine National bank; C. E. Ponsie, receiver for the Manufacturers' bank of West Duluth; James C. Hunter, cashier of the American Exchange bank; William S. Bishop, assistant cashier of the First National bank; Charles F. Island, president of the Commercial bank; Charles A. Britts, of the St. Louis County bank, and Franklin J. Palford, of the Duluth Trust company.

It made a very respectable gathering altogether, and while nothing could be learned as to the nature of the business on which these financial lights were gathered together, the grand jury evidently had some definite purpose in view, for the jury took only a very short time with each witness. The testimony of each witness was concluded, he was handed an order for \$1.12, which each one immediately cashed.

The calling of the bankers has given rise to the belief that the grand jury is keeping the county and city funds is being investigated.

W. F. Markus, formerly of the office of the register of deeds, who was called yesterday, was still in attendance on the grand jury today. Other than these there were no witnesses this morning.

Immediately after the grand jury convened this morning, it went before Judge Ensign and handed him two indictments against Bart Wood and Lewis Paughman, the two boys accused of holding up the proprietors of a West Duluth standing rink. Each indictment charged robbery in the first degree, and the only difference between the two was that in one the P. Noss is named as the one robbed, while in the other it is the victim. The indictments allege that on the night of Dec. 27 the boys robbed these two men of \$7 by force and violence, and while armed with dangerous weapons, to-wit, two large revolvers.

R. S. Munger, foreman of the grand jury, said today that the jury had expected to complete its work this week by holding night sessions, which had been agreed to by all the parties, and thus secure their final discharge not later than Saturday. This hope, however, has been disappointed, because new and unexpected matters that have been brought to the attention of the jury for investigation. Now the grand jury's work is not in sight and it will continue in session indefinitely. Much of the work that has already been done by the jury is being called upon to do it of a decidedly frivolous character and can result in nothing but large expense to the county. At least this is the view that several of the jurymen take of it.

THE JURORS EXCUSED.
Allowed to Go Until the Grand Jury Reports.

The petit jurors drawn for the January term were excused at the conclusion of the jury calendar until today, the intention being to hold them to try the result of the grand jury's investigations. As there are no particular results to try so far, nothing having been done with the indictments returned last Saturday, the jurors were excused for the term when they appeared this morning. This probably means that whatever results from the grand jury's work will go over to the March term for trial.

Before Judge Ensign this morning the session was spent in the closing arguments to the jury in the case of Matts Holmer against Nils Elshager. The court's charge was to take place after the noon recess, after which the case was to go to the jury.

Judge Meier this morning took up the divorce case of Henry Schwalm against Carrie Schwalm. The plaintiff alleges that his wife deserted him nearly two years ago, and his wife, while disputing Schwalm's application for a divorce on the ground that she had cause to leave, does not ask for a divorce for herself. Schwalm claims that his wife deserted him, among other things by telling people that he was unduly intimate with his daughter, who lived with him on Bay View Heights. Schwalm said on the stand that when his wife got started she talked eighty miles an hour. Mrs. Schwalm claims that her husband abused her, so she left him and went

to live with her married daughter in Wisconsin. The case was still on trial at noon.

THEY ROAST IT.
News Tribune Catches it Right and Left.

The "Morning Liar," as Mayor Truelsen has been pleased to name the News Tribune, was a pretty badly used up affair this morning and the huffing it has received about the streets today can hardly be like music to its ears. It is being reviled everywhere, among the men it supported, because its support nearly always seems to be fatal and among those it defeated because of the mean and dishonorable character of its fight. One man likened it to the deadly upas tree which blights and destroys everyone who comes within its grasp.

"If I was ever possessed with a desire to be elected to an office," said a prominent man to a Herald reporter, "the first movement I would make in my behalf would be to get the opposition of the News Tribune. The rest would be easy."

The News Tribune's support doesn't seem to cut much figure, does it? said one lawyer in a group of two or three. "A little less than nothing," was the response.

"It seems to take more than an announced 'chance' management to give the people any confidence in the sheet," said another. "So long as its tactics remain the same I can expect nothing more than it got this time."

These are just a few samples of what can be heard up and down the street, but they will serve to give some idea of the general feeling toward it. The slanderous attack which the morning paper made on Fred Voss is responsible more than anything else for the disparaging remarks. It was so bitter and so malignant that it aroused every man who knew Mr. Voss to work actively in his interest and it caused many strong Republicans who might otherwise have cast their ballots for Mr. Hughes to vote for Mr. Voss in order to vindicate him from the base insinuations.

Up to the hour of going to press the manager of the News Tribune had not called upon Mayor Truelsen to offer his congratulations, neither had he called to offer his apologies to City Treasurer Voss. Both officials are feeling very kindly today and would doubtless receive the gentleman very graciously, even though the last meeting between the mayor and the manager, when the latter fled for fear of feeling the toe of Henry's boot, was rather stormy.

As the last returns were put on the blackboards last night, the following message was received and posted up, causing a great deal of amusement: "A congregation of American citizens, assembled at the Spaulding hotel, wish to tender their congratulations to the News Tribune."

FIRE BOARD MEETING.

Final Action as to Fire Tugs Was Postponed.

At the monthly meeting of the board of fire commissioners the question of the contract for fire tug services was discussed. Final action was postponed until the receipt of more complete data on the subject of the boiler capacity required for the various sizes of fire pumps. Capt. Singer has withdrawn his bid for the contract, leaving the field to Capt. Howard and Ryan. The report of Chief Black showed that the department had responded to twenty-six alarms during the month. The loss during the month was \$268,250; total insurance, \$124,520. The secretary was instructed to serve the notice of an officer cutting up on the United States block and Bennett hotel, West Duluth. If these notices are not complied with the penalty provided by law will be enforced.

HE LOST HIS LEG.

Omaha Switchman's Unfortunate Accident Today.

John Parecka, a switchman in the employ of the Omaha road, was run down in the yards, near Fifth avenue west, early this morning, receiving injuries that necessitated the amputation of a leg. He was reported, late this afternoon, to be recovering comfortably at St. Mary's hospital, whither he was taken.

Parecka attempted to mount the foot-board of switch engine No. 22, missing his hold and falling under a refrigerator car attached to the locomotive. The injured man lives on Garfield avenue.

Poor Farm Report.

Superintendent A. F. Roekwell has filed with the county auditor a statement of the expenses of the poor farm for 1896. The gross expenses were \$662.04 for the year. During the year 2381 weeks' board was furnished paupers, and 429 weeks' board was furnished employees, making a total of 2810. The average cost per day was 24 cents for each inmate. There were inmates Jan. 1, 1896, and 57 Dec. 31, 1896, 151 having been received and 140 discharged during the year. The expenses of the farm for last month were \$1257.52.

The superintendent of roads reported \$2673.70 expended during January.

Low Passenger Rates St. Paul--Minneapolis.

Round trip \$1.30, via the Eastern Minnesota railway, Feb. 2 and 3. Solid trains, cafe parlor cars, new sleeping cars. Tickets, Union depot and city ticket office, 422 West Superior street, Spaulding hotel.

Low Prices For Coal

Of superior quality will be appreciated by consumers. Are reordering call at the offices of the PIONEER FUEL COMPANY, 329 West Superior street.

COLONIES

Number of Them Expecting to Come to This Land District.

Many Inquiries For Farming Lands Received at the Land Office.

Come From Men Who Cannot Get a Living in the Cities.

A number of letters have been received at the United States land office which indicate that there is to be quite an immigration of settlers to this land district next spring. The inquiries are coming from many parts of the country, and in every case agricultural lands are wanted.

One of the letters arrived this morning, and is from Chicago. The writer said that several families were planning to come up into this section. The men are not able to support their families in the cities, and master how hard they work, said the writer, and have come to the conclusion that the best thing to do is to take farm land, where they can at least get a living and be healthy. He asked for information as to the farming lands in this district.

A few days ago an inquiry came from twenty-five families in Wisconsin, who have formed a committee and expect to take government lands in this district. They expect to come in the spring.

Other inquiries have been received. In most cases they are from working-men in the cities, who find themselves unable to support their families. The step they are taking is regarded as a desperate one, for there is little doubt that the congested population in the cities is causing great hardship. Country life is less entertaining, but more healthful, and the writer said that when it cannot be had in the streets of a city.

In this land district there are some fine agricultural lands. In Itasca, Aitkin and Carlton counties there are any number of farms which would be excellent crops can be grown. The city of Duluth, too, offers an excellent market for vegetables and garden truck. Better prices can be secured than in almost any other portion of the Northwest.

HAD HIS FUN, TOO.

How One of the Specials Enjoyed Himself.

The regular members of the police force who danced at the policemen's hall at the Armory on Monday evening did not have all the fun there was going on. One of the specials, who was on duty that night, was cast in the role of a comedian, and had a little enjoyment himself. Being imbued with a desire to acquire himself in a creditable manner, he proceeded conscientiously to work in accordance with his idea of the duties of a policeman, to rather a gag. He was eminently successful in this and in the middle of the night he was found in a state of unconsciousness, performing what he conceived to be the duty of an officer, cutting up on the floor of the hall of an officer's quarters.

Here he was found by some other specials who had not been so thorough in attending to their duties as he. They woke him up, leaned him against the wall, and by strenuous exertions got him in shape to report at headquarters when it came time to go off duty.

Stone-Ewald Wedding.

A very pretty wedding occurred at high noon today at the residence of Commodore and Mrs. B. L. Inman, 20, 104 East First street. Rev. C. C. Salter officiating. The contracting parties are John Ewald, of Duluth, and Superior and were Philip Ewald and Mrs. Emma Fuller Stone. The bride was fashionably gowned in green broadcloth, trimmed with white broadcloth and gold lace. The wedding party stood in the driveway between the two parlors, immediately under a large floral arch, which took the place of the old-fashioned wedding veil, while the venerable clergyman intoned the brief, but impressive service. The decorations of the house were grand and the wedding party, immediately after the ceremony the party of guests, about twenty-five in all, sat down to a sumptuous wedding breakfast, and later in the afternoon the happy couple went to their residence, which was in complete readiness, at 257 West Second street, where they will be at home in a few days.

Dismissed the Case.

The case of W. E. Dorwin vs. the Marine National Bank in the United States circuit court was dismissed by the plaintiff today. Dorwin brought suit to recover between \$6000 and \$7000, claiming that the money on deposit was a trust fund, it having been collected by the bank and no disposition of it directed by Mr. Dorwin.

THE ATCHISON DIRECTORS.
New York, Feb. 2.—The Atchison directors held their regular monthly meeting today and announced the purchase of the \$16,000,000 first mortgage bonds of the Atlantic & Pacific, recently authorized. The common stock is now being issued in exchange for the re-organization certificates.

CAPT. CHAPMAN VICTORIOUS.
New York, Feb. 2.—The police commissioners today dismissed the charges against Police Captain Chapman, grown out of the captain's raid on the Seelye dinner at Sherry's.

Removal.

Knäuf sisters have removed their hair dressing parlors from No. 7 East Superior street, to 101 West Superior street, (over Smith & Smith's drug store.)

\$500 to loan on improved property. N. J. Upham & Co., Torrey block.

Hear one of the ablest lecturers on the American platform at High School tonight.

Mrs. M. Shattuck,

Formerly with Boyd & Wilbur, is now prepared to do Hair Dressing, Manicure and Choppy at her parlors in the Metropolitan Block, over Freimuth's.

ERICKSON ESTATE SUING.

Celia J. Hoff and Bondsman Are Defendants.

Carl M. Johanson, as administrator of the estate of John Erickson, this morning began suit against Celia Hoff and J. J. Eklund and Paul Sharvy to recover \$673.03 alleged to be due from the estate of Nils J. Hoff, of which Celia Hoff is administratrix. It is alleged that the claim was allowed by the district court but has been disregarded by the administratrix. The defendants Eklund and Sharvy are sureties on Mrs. Hoff's bond of \$4000 as administratrix. The claim was originally \$435, but has been swelled to \$673.03 by costs and interest. Fryberger & Johanson are the attorneys.

In the case of H. Rosenbaum against the insolvent firm of Howard & Haynie the plaintiff has filed notice of an appeal to the supreme court from an order denying a motion for a new trial. U. S. G. Sharp has filed a surety bond for \$20,000 in the American Surety company as assignee for Thomas Sharp. Judge Ensign has filed findings in the case of William C. Stevens against A. R. Merritt et al. The plaintiff executed a bond for a deed to certain land some \$1000 to A. R. and C. Merritt, and the latter failed to make payments on the land. The other defendants were a large number of creditors who claimed liens on the land, and Stevens wanted to annul the bond for deed and have the defendants declared to have no title or interest in the land. Judge Ensign finds in accordance with Stevens' interests.

PROUD OF THE PEOPLE.

Mayor Truelsen Thinks They Are All Right.

It was a great victory, Mayor Truelsen said today, and he is proud of the people of Duluth. The result of the election he considers proof that they are not to be lulled to sleep by their interests by party prejudices. "The people," said he, "know on which side the battle is hottest. The water question will not trouble the people any more. That is settled. Great as the victory is, it was not surprising, confidently expected it."

The mayor produced a paper on which were written predictions of the result made by himself and B. F. Howard. The mayor's prediction was that the Republicans would not elect to exceed two aldermen, and Howard's was that they would elect all but two. He remarked that he felt proud of having proven himself a better prophet than the astute Ben.

NEW YORK STOCKS.

Weakness Was Apparent But Trading Was Good.

New York, Feb. 3.—The stock market displayed weakness at the outset under the influence of a drive against Sugar and the unfavorable statement of St. Paul for the last week. In January showing a decrease in the earnings of \$124,367. Business was in fairly large volume, but the market was of the extreme decline of 1/2 per cent.

The selling movement was soon exhausted and general gains ensued under the leadership of the railways. The foreign houses offered St. Paul freely, but the stock was well absorbed by the traders and commission houses. Oregon Navigation preferred rose 1 per cent in rumors of probable control by the Great Northern and Northern Pacific interests. The specialties fluctuated briskly with a narrow range outside of Sugar, which declined 1 per cent on heavy Washington selling, which tends to color recent reports of a like character of radical changes being made in the tariff on the staple. New 4s registered and coupon, \$1.25; 5s registered and coupon, \$1.13; 6s registered, \$1.12; 7s registered, 95c; Pacific 10s of '98, \$1.03.

Trading was on a larger scale after the first hour and there was additional progress towards a higher level. A few grangers and some low-priced securities were most prominent in the trading. Among the latter St. Louis & San Francisco was conspicuous for marked gains, the first and second preferred stocks advancing 1 1/2 and 1 3/4 per cent. Union Pacific also made a figure and improved 1 1/2 per cent on a resumption of foreign purchases. Some weak spots were noted. Manhattan listing at point on liquidation of speculative holdings induced by aggressive opposition of surface street car lines. Railway mortgages were firm and generally higher on modern transactions. Sales to noon were 76,700 shares.

Salvation Oil should always be kept in the kitchen. For the ready cure of scalds and burns it has no equal. 25 cents.

Lime Kiln Rink.

Band tomorrow night.
Band Dr. May at High School tonight.

Hear Dr. Eugene May, of Washington, D. C., in his great descriptive lecture, "With a Knapsack Through Switzerland and Up the Matterhorn Mountain," at the High School tomorrow, Wednesday, Feb. 3, Admission, 35 cents; Children, 15 cents. Thrilling, interesting and profitable.

REVERIES

Addison Cammack a Famous Wall Street Dealer Quits Business.

Mrs. Cammack Refused to Let the Old Man Speculate Further.

He is the Last of the Darling Operators of Wall Street.

New York, Feb. 4.—Addison Cammack, the last of the picturesque figures who made Wall Street what it is, has surprised the street by selling his seat on the stock exchange, the purchaser being Henry J. Dittman, the price \$25,000.

In spite of the \$20,000, or \$4,000,000 which he amassed in the street, Cammack is now, personally, a poor man. All of his estate is said to be invested in real estate or in holdings in the name of his wife, who opposed his continuing in the "street," and the big operator was in consequence without money with which to carry on any but the smallest deals.

In the last two or three years Mr. Cammack is said to have lost nearly all of the money which he had made in the street. He was a large speculator, and his fortune was ample, and there was no use in risking it in the hope of making more money which was not needed. The practical view of the situation, she finally succeeded in persuading him to her husband, and the result was his action of today.

Mrs. Cammack was a Miss Hildreth, of Washington, and she was married to Mr. Cammack twelve years ago. At the time he settled \$1,000,000 in the street, and since then has given her three or four times as much. They have two sons, aged 15 and 12, and a daughter, 10 years old, while her husband is 71. Mr. Cammack was a blockade runner during the war, and then began his career on the stock market. As a speculator he soon made a national reputation and went into business for himself with Charles F. Worcester. He engineered the collapse of the Northern Pacific in 1882.

During his life in the South he frequently acted for Jay Gould and Commodore Vanderbilt when they had any deals which they wished to put in the hands of a specially daring operator. All the noted men with whom he did business are now dead or retired, and he is the last of a group that made the street famous.

PORTO RICO REFORMS.

Automonists of the Island Are Not Satisfied.

New York, Feb. 4.—A dispatch to the Herald from San Juan, Porto Rico, says: The automonists of the island have issued a manifesto announcing serious dissatisfaction at the reforms recently granted by Spain. The manifesto states that because of the party's attitude its members will refuse to vote at the coming municipal elections. These elections are the last practical application of the new law.

The Porto Rico reforms, as enacted by the Spanish law, provide that the island of Porto Rico, while yet remaining one province, shall be divided into two regions. Each region shall elect deputies and in each is a delegate of the governor of the island, to facilitate his excellency's operations.

There is also an administrative council, consisting of the leading officials of the island, and then the judges, and six councilors, nominated by royal decree. The function of the council is to advise on all questions relating to economy and international administration. The council is to be organized by postal and telegraph communications by land and water, agriculture, industry, commerce, immigration and colonization, public instruction and sanitation.

LEADVILLE STRIKERS.

Murder Cases Against Them Are Nolle Prossed.

Denver, Col., Feb. 4.—The state supreme court has ordered that a peremptory writ of prohibition issue commanding the district court of Lake county to dismiss the case against the officers of the Leadville miners' union, indicted for murder upon a nolle prosequi. Judge Owens, of Leadville, who is accused of being too friendly to the strikers, had refused to grant a change of venue, or to call in another judge to try the case against the officers of the union. The district attorney ordered a nolle prosequi, the judge refused to accept it and announced that the trial must go on immediately. By the action of the supreme court, he is prohibited from proceeding with the case.

THE PINE ESTIMATORS.

Six More Names Presented By Maj. Baldwin.

Washington, Feb. 4.—(Special to the Herald)—Maj. Baldwin today recommended to Secretary Francis the appointment of Hugh McKee, of Atkin; Alexander Frazer, of Duluth; F. H. Hall, of Brainerd; James Oliver, of Grand Rapids; George F. Rigby, of Cloquet; and L. F. Johnson, of Spencer Brook, as additional members of the pine land estimator corps. No further appointments in this service will be made for the present.

SULTAN NOT RESPONSIBLE.
New York, Feb. 4.—A dispatch to the Herald from St. Petersburg, says: The Novosti says, "It is foolish to imagine that the sultan can be held responsible for the recent events in Turkey. It is the Mussulman population whom he has to consider and that population can only be conquered by war, which cost Russia so dear in 1878. If England or any other country were to be-

WELL ONS

Rich Mine in the Canadian Rainy River District to Be Worked.

Expensive Operating Plant is Now Being Erected on the Property.

Roswell P. Flower, Harry Folger and James Hammond Are Principal Owners.

New York, Feb. 4.—There is a hole in the ground in the Rainy River district just north of Minnesota and north-west of Lake Superior, out of which a big American and English syndicate profess to expect to get several millions of dollars worth of gold within the present year. It was located by Harry Folger, private secretary to ex-Governor Roswell P. Flower, in company with James Hammond, well known in the northwest as a prospector. The mine is only forty miles from railroad and is adjacent to the most abundant supplies of water. Mr. Folger is a native of Kingston, Ont., where he has been for many years. He is in the banking business. He studied law here and is well known in the street.

The contest will be held on Feb. 18, 1897. Mr. Folger was elected to the mine region by an Indian, who said he had been told by the miners, and they made a speedy return to civilization. When they got to Fort Snelling, they found the mine and set about the legal proceedings necessary to obtain the mine. Application to the government for possession was made and engineers were dispatched to Saw Bill, Hammond found the mine. In a later examination of the claim Hammond struck a vein of gold in ore. It is claimed that he doubled even his own experienced eye. The men were sent to work and the mine was found to extend a mile and a half and to be most wonderfully prolific. The ore outcropped continuously throughout the entire length of the mine, which was about 125 feet.

A strong syndicate, represented in Wall street, London and Canada, has been formed to develop the mine and an operating plant is now being erected at a cost, it is stated, of several hundred thousand dollars. The mine is to be worked by a syndicate of English capitalists. The last offer, which is asserted, ran into seven figures, was rejected by the syndicate. They intended to operate the claim themselves.

IN THE DAKOTAS.
NORTH DAKOTA.
Fred Bolvort, former of car repairer, was killed by a train engine and killed another, a fellow moving car at Fargo. The engine was on the track and the other was on the track. He was crushed and killed. He was killed by a train engine and killed another, a fellow moving car at Fargo.

HOW YOU MAY OBTAIN A LASTING CURE FOR PILES.
No Surgical Operation, No Pain, Trifling Expense.—A Simple, Harmless Remedy, But It Does the Work.

There are some people who have piles as frequently and regularly as other people have colic.

Any little bowel trouble will bring them, on any extra exertion, as in lifting, will produce them, and in fact will often appear without any apparent provocation. Piles, however, are much more serious than a cold, as the tendency is always to grow worse until the trouble becomes deep seated and chronic, or develops into some fatal disease.

While there are many pile remedies which give relief, yet there is but one which not only gives instant relief, but at the same time makes a permanent cure, and that is the well known Pyramid Pile Cure.

This remedy is composed of simple, harmless, vegetable ingredients, but combined so effectively and act so promptly and thoroughly that it cures every form of piles whether itching, blind, bleeding or protruding.

In long standing cases the Pyramid Pile Cure has proven to be the only certain cure except a surgical operation, and its advantages over an operation are many, as it is painless, causes no delay, no interference with daily occupation and last, but not least, it is cheaper than any surgical operation could possibly be costing but a dollar a package at any drug store.

The cases that the Pyramid Pile Cure will not reach are so few that physicians are doing away with operations for piles and depending on this cheap, but effective remedy to accomplish a complete cure, and it never disappoints except in cases beyond the reach of medical skill.

The Pyramid Pile Cure is prepared by the Pyramid Pile Cure company, at Alton, Mich., and for sale by druggists everywhere at 50 cents per package. Each package contains a treatise on cause and cure of piles, together with testimonials from every section of this country.

WOODMEN ADJOURN.
Duluth, Feb. 4.—The head camp of the Woodmen of the World adjourned last night to meet in St. Paul in February, 1897.

Delegates to the sovereign camp at St. Louis were chosen as follows: Minn.—J. H. Johnson, of Duluth; Wm. H. Bourgauff, Duluth. Wisconsin.—T. P. Gates, Lacrosse; Jacob Bush, Racine. Michigan.—J. H. Johnson, of Duluth. N. Y.—J. H. Johnson, of Duluth. N. Y.—J. H. Johnson, of Duluth.

MURDERED BY A MEXICAN.
Duluth, Cal., Feb. 4.—Benjamin Henderson, a wealthy ranch owner and pioneer settler, has been murdered by a Mexican laborer named Hernandez. The murderer stabbed Henderson in the back and then hacked to pieces the body of his victim.

COULD NOT EAT OR SLEEP.

Perfectly Cured by the Great Remedy, Dr. Greene's Nervura.

GRiffin CONFIRMED.
The Senate Approves Governor Clough's Nominee.

St. Paul, Feb. 4.—The senate yesterday afternoon voted to confirm the appointment of Truman Griffin to the state pharmacy board, by the following vote: Yeas—Hart, Cole, Collector, Cronk, Calkins, Currier, Dunham, Dunn, French, Fuller, Greer, Hanna, Hammond, Hendon, Holger, Hitt, Jones, Keller, Knatford, Larson, Lloyd, McArthur, Peterson, Pettigrew, Ringland, Polk, Reisch, Smith, Stevens, Stebbins, Stokerson, Sweningsen, Theodor, Thompson, Thorpe, Whitney, Young—29.

Nays—Johnson, A. G. Johnson, W. E. Miller, Morgan, McHale, Ozmuth, Polk, Reisch, Smith, Stevens, Wymann, Yale—12.

The debate lasted an hour. It now remains to be seen whether the state pharmaceutical association will take the case into court. Logically, the senate is bound to accept the report of the statute with which the governor finds fault, and if this report comes about a new bill will undoubtedly be passed providing for the appointment of members of the pharmacy board as members of other boards are appointed.

IMPORTANT TO SUFFERERS.

CITY BRIEFS.

Cullum, dentist, Palladio, Phone No. 9. Smoke Enolan cigar. W. A. Foote, E. J. MacLeod's neighbor, who composed of himself, Donald MacLeod, Thomas Gibson and Alex. MacRae, united against Charles McMillen's rink, composed of himself, C. B. Woodruff, H. C. Cullum and Frank MacLaren, last evening. MacLeod won out by a score of 15 to 9.

P. L. Baron has been appointed general agent of the Omaha system at Superior and West Superior, the two offices having been consolidated.

Reverend the Rev. Professor Judge at the cathedral next Sunday evening. Admission 25 cents.

The "Tribble Bee" of the First Methodist church will meet with Mrs. M. J. Davis, 221 West Third street, tomorrow afternoon. This society meets once each month for a social time and for the purpose of getting acquainted with the new members and strangers.

The special services at the Second Presbyterian church this week have been thus far largely attended. The subject tonight will be "The Red Sea and the White Sea." Tomorrow evening Rev. H. H. Dresser, of Grace M. E. church, will be the special speaker. Services begin at 7:30.

Duluth Trunk factory removed to 220 West Superior street. Heavily built, George Blanchard was fined \$10 and costs by Judge Eldon this morning for drunkenness. He will work it out on the bill. Lewis Anderson, charged with the same offense, was released under a suspended sentence.

The following deaths have been reported to the health department: Elsie, infant daughter of Thomas and Mary Stock, of 411 East Ninth street, of meningitis; Charles Davis, aged 60, of Twenty-third avenue west and Third street, of heart disease; Zella, infant daughter of H. and S. Miller, of 227 Piedmont avenue, of capillary bronchitis.

The next meeting of the Duluth Historical and Scientific association will be held in the High School library tomorrow evening.

The St. Luke's church will have a rehearsal tonight at St. Paul's church. It will be the last of the series.

A marriage license has been issued to George L. Hargrove and Mary E. Hoff.

PERSONALS.

William Boland returned from Dakota this morning.

Mrs. Henry Truelson, Jr., is confined to her bed as the result of a fall on the stairs from the balcony to the first floor of the Armour building on the night of the policemen's ball.

Thomas H. Lark, commercial agent of the Duluth, South Shore & Atlantic, is in Minnesota.

C. H. Sugar has returned from the Bermuda Islands, where he has been in quest of health.

William Myrick, of St. Paul, is in the city arranging for preliminary work on the Duluth city directory for 1907.

Mrs. W. W. Newton went to Jamestown, N. D., to see her mother.

H. A. Tuttle, general superintendent of the North American Telegraph company, is in the city.

Carl J. D. Wood, a postoffice inspector, came up from St. Paul last night on official business.

Charles A. Johnson, of Grand Marais, is at the Merchants.

Edmund is in the city from Sandstone.

Fred M. Sabin, of St. Paul, is at the Seaboard.

George B. Finch and George A. McPherson, of St. Paul, are among today's arrivals at the city hotel.

L. L. Gibb, of Hibbing, is in Duluth today. He is registered at the St. Louis.

Leonard J. Robinson came down from the Seine river today and left this afternoon for California. He has been looking over the gold field there, but the result of his observations he declines to state. He has been working in the interest of some prospective California investors.

H. D. Fowles, of St. Paul, is at the St. Louis.

C. McCarthy, of Grand Rapids, Minn., is in the city today on legal business.

J. E. Miller, of Two Harbors, is among today's arrivals at the St. Louis.

A MASTIFF KILLED.

Caught in the Government Building Elevator Today.

A peculiar accident occurred today at the government building and disturbed the equilibrium of the occupants of the building for some time and frightened the elevator boy out of a year's growth at least. A. W. Anderson, the Lake avenue saloon keeper, and one or two others were in the basement looking at some machinery. Anderson had a large mastiff with him. They took the elevator up and Anderson took the dog in with him. As the elevator was rising the dog suddenly backed off and was caught between the first floor and the elevator floor. He was horribly crushed and died within a few minutes in terrible agony. His howls started everyone in the building and caused a great commotion.

Anderson valued the animal highly and was greatly concerned over his death.

Chopped Off Another Notch.

The coal war still moves merrily along and today \$5.25 is the open price. This probably means that coal can be had on the river for 25 cents a ton less. There seems to be no prospect of a settlement now, but there is no telling what may happen if the weather turns cold and the demand gets better.

The Greatest Snap on Earth.

An unlimited amount of pea coal of small dealers, so come to headquarters.

INJECTED

Auditor Halden Charged With Misappropriating Funds of the County.

Accused of Failing to Turn Over Money Received By Him.

He Exhibits the Treasurer's Receipt in Refutation of the Charge.

On the fifth day after the grand jury returned four indictments, the first product of the long municipal and county investigation, County Auditor Odin Halden was arrested this morning on a bench warrant, issued by Deputy Clerk Peachey, as ordered by Judge Englen at the request of Acting County Attorney C. O. Baldwin.

The four indictments, all of which are against Mr. Halden, are for practically the same thing, and the heart of the legal phraseology, in which the charge is enveloped, is that he appropriated \$229.60, the amount received for filing certificates of nomination at the last election. Misappropriation of money received by him in his capacity of county auditor is the charge in each indictment.

The bench warrant was issued soon after the opening of court this morning, and about 10 o'clock Mr. Halden appeared, accompanied by J. W. Reynolds, his attorney. C. O. Baldwin appeared for the state. The reading of the indictment was waived, and Mr. Halden was given until tomorrow to plead.

At that time he will plead not guilty. Bail was fixed at \$500 in cash, or \$2000 in all by consent of the attorneys. It was quickly furnished.

The first of the four indictments alleges that while Odin Halden was acting as county auditor he received from candidates at the last general election \$229.60 in fees for filing certificates of nomination and placing the names of candidates on the ballot. The names of all these candidates and the amounts given by each are embodied in the indictment. It is further alleged that on Jan. 28 L. H. Whipple, as treasurer of the county, received from Mr. Halden pay over the money, and that he refused and still refuses to do so.

The second indictment charges practically the same as the first, except that instead of receiving the treasurer's money, Mr. Halden appropriated the money to his own use. The other two are the same, except that instead of the lump sum the individual cases of L. H. Whipple, county treasurer, and J. E. Eldon, candidate for coroner, are the causes of action.

MR. HALDEN'S STATEMENT.

The following statement was given out by J. W. Reynolds, Mr. Halden's attorney, at the request of the Herald:

The four indictments are four forms of the same charge. Two of them allege the same misappropriation of \$229.60, received by the auditor from the candidates as fees for putting their names on the ballots. The other two charge the misappropriation of \$10 paid by Dr. Eldon, candidate for coroner, and \$10 paid by L. H. Whipple, candidate for treasurer. Both of these items are included in the \$229.60, which was the total amount received by him from all the candidates.

"Every cent of that sum has been paid over by the auditor in the regular course of business, as shown by the treasurer's books. Precursor's book No. 955 covers the money in question, as shown by his stub book. The receipt was as follows:

Treasurer's Office, St. Louis County, Minn., Duluth, Minn., Jan. 29, 1907.

Received of O. Halden, county auditor, three hundred twenty-nine 60/100 dollars, fees paid by candidates for election, November, 1906.

By S. S. WILLIAMSON, Deputy.

Accompanying the receipt, written in the margin, is a statement of the amounts received as follows: Congress, \$25; representatives, \$420.20; judges, \$4,226.64; county officers, \$8,180; county commissioners, \$3,880; total, \$229.60.

"In the face of this, any charge of wrongdoing seems to be entirely without foundation."

The case will be continued over to the March term of district court.

The County Board.

The county superintendent of poor this morning filed with the clerk of the board of county commissioners a statement of the expenses for January as follows: Provisions, \$1975.50; fuel, \$233; clothing, \$369.55; burials, \$60.90; transportation, \$235.45; poor farm, \$1257.32; sick, \$711.53; miscellaneous, \$287.85; total, \$5046.11.

The district he reported earnings of \$1067.25 during January, of which \$572.35 is uncollected and the collection of \$494.90 due from individuals and months. The net receipts were \$889.55.

With the exception of the possible annulment of the contracts with H. Johnson, there was nothing out of the ordinary to come before the board at this afternoon's meeting. The appropriation of \$75 per month for the Associated Charities, to be paid to Capt. J. W. Miller, will probably be renewed.

FRANK ESSON DEAD.

Heart Failure Caused His Death Early This Morning.

Frank Esson expired at 5:30 o'clock this morning at his home, 310 West Second street, of what the attending physicians pronounce to be heart failure. The deceased had been suffering from quinsy, and yesterday afternoon symptoms of diphtheria had developed, but neither of these ailments, say the physicians, could have caused death at the stage at which they arrived. The swelling attendant on quinsy had broken and the patient had progressed so far toward recovery that he was left alone night before last. Yesterday at 4 o'clock, the diphtheritic membrane had appeared, at which hour anti-toxine was administered and again early in the evening. The diphtheritic membrane was a small one, indicating a light case, and the disease appeared to yield to the treatment. At 9 o'clock, however, the patient began to breathe with difficulty. Stimulants were administered and during the night strychnine to the amount of one-eighth of a grain was administered. All efforts were unavailing, however, the patient beginning to sink rapidly shortly after 4 o'clock. When death came, George Esson, brother of the deceased, was present. The cause of the case and the nurse were present.

The deceased was well known in Duluth. He took a great interest in curling, in which he was an adept, ranking in the A class, the highest in the club, and was very popular with the curlers. He made a fine record at Portage. He seemed in perfect health when he was charged of a slight cold until very recently. Since his return from Portage up to the time he was taken with quinsy, a few days ago, he has figured in several curling contests. He was 31 years old, his birth being at Pitt Meadows, Scotland, and was engaged in the contracting business. He was unmarried, his mother being the only relative he has in Duluth. The curling club, of which he was a member, has taken some action by way of a tribute to his memory.

The funeral occurred at 2 o'clock this afternoon, the interment being at Pines Hill. There were no services at the house. A brief address was delivered by the pastor of the church, Rev. H. C. Johnson. A large number of the friends of the deceased accompanied the remains to the grave.

ELKS' SOCIAL SESSION.

Preparations for a Very Sociable Time Tonight.

The Elks have secured the services of the Troubadours quartet for their social session tonight, among other amusements.

The musical program is said to be the best yet attempted by the Elks in any social gathering they have had this season. J. H. Cotton, who is the debut address on the past and present of the order, and Joseph Reynolds will respond. Vocal solos will be rendered by Messrs. Starkey, Prophet, Doran, Sigrist, Martin, Gilbert and William. The quartet will render a piano solo. Mr. Stephen Jones will act as accompanist, and Mr. Halden will act as emcee. The session will be called to order by the president, Mr. Halden. Many guests have been invited to attend.

GREETED WITH HISSES.

An Incident Which Occurred at the Ball.

An incident expressive of the regard in which the News Tribune is held occurred at the Turners' masquerade ball last evening. When Mayor Truelson, of the committee on prizes, was about to deliver an address, he was greeted with a loud and prolonged hissing sound of applause.

"And now," said the gentleman who presided over the evening's entertainment, "permit me to introduce the representative of the News Tribune."

As the words were spoken, a storm of hisses went up, mingled with cries of "The News Tribune is a liar!" and "The News Tribune is a liar!"

The representative of the News Tribune, who had no more to do with the party, left the room, and was visited on the well intentioned.

IN CONFLICT AGAIN.

Health Officer and Ice Companies Are at It.

The annual conflict between the health department and the ice men is on again. The department was informed today that the East End Ice company was putting ice for domestic use that had been cut off from shore.

The ice men say that a famine is on shore, and that the health department is sent to the company to desist at once.

BOSS UP

Inspector Nesbitt Produces Himself as the Man Mr. Warren Meant.

Says He Only Talked Transportation to the Street Railway Manager.

He Denies That He Even Hinted at Bleeding the Company.

Inspector Nesbitt, of the health department, considers that the remarks made by General Manager Warren, of the street railway company, at the council caucus on Monday, to the effect that an attempt had been made to "sant-bag" his company with the "salt" ordinance, were directed at him, and he now demands an investigation by way of calling Warren's bluff.

Nesbitt says that Warren either misunderstood him or else made a willful attempt to make capital by distorting a conversation he had with him. He now proposes that the council shall know exactly what was said.

According to Inspector Nesbitt, he called on Mr. Warren to get some transportation for use as an ambulance in the health department. In conversation with Warren, he says, the salt ordinance came up, but that he made no proposals as claimed by him. On the transportation being refused, Nesbitt says he remarked that it seemed strange that, while the other departments were favored in that way, the health department was not, but that he made no threats, as stated by Mr. Warren.

It is possible that the matter will be referred for investigation to the committee in charge of the ordinance.

CUTTING IN WASHINGTON.

Masqueraded as a Newspaper Man and Saw Much.

Attorney Frank Cutting has just returned from Washington, D. C., where he visited a fortnight. While there, he saw Lullabakian, pronounced Lilly-oak, who is the editor of the "Washington Post," and saw Morgan make his speech in the senate on the receipt of Minister Rodriguez' protest against the further prosecution of the Nicaragua canal scheme, and heard Senator Turpin's speech on the Cuban question. He described the scene when Morgan denounced the move against the canal as a scheme set afoot by English intrigue as very dramatic.

Frank attended the reception given by "Queen Lil" to the press, at the Shoreham. He got in as a newspaper man, as there was a large crowd and some confusion at the door, he passed muster. He describes the ex-queen as a refined, intellectual looking woman, very dark and with perfectly straight hair. She is apparently about 30 years of age. She speaks perfect English with a slight Southern accent. She did not seem to care to be addressed by her name, Mrs. Dominis, and was spoken of by her attendants as the ex-queen or her highness. When he saw her name, Mrs. Dominis, he was not surprised.

The first night of the party was Washington, D. C., and the second night was St. Louis, Mo. Mr. Cutting, "Sleighs were in great demand and those who had high prices. I was asked \$15 for the use of a cutter for three hours. They were very comfortable and did not get below zero, but I suffered more than here at 20 below."

Notice.

Having satisfied ourselves that other grades of coal are being offered under the name of "Pocahontas" or similar names by unscrupulous dealers, we have to announce that this company only has the exclusive agency for the genuine Pocahontas smokeless coal.

Copy of Castner & Curran letter appended.

Philadelphia, June 1, 1856.

The exclusive sale of Pocahontas "smokeless" coal in all Northwestern territory is hereby being offered under the name of the Pioneer Fuel company, who are fully equipped to make deliveries on short notice throughout Northern Wisconsin, Northern Michigan, Minnesota, the Dakotas and Manitoba at very low prices in comparison with other grades, when the heating properties and steam-promoting qualities of this celebrated coal are considered. Castner & Curran.

A RIPE OLD AGE.

Death of S. H. Rothermel's Father in Philadelphia.

Samuel H. Rothermel, Sr., of Philadelphia, father of S. H. Rothermel, of this city, died two or three days ago in that city. Mr. and Mrs. Rothermel were at his bedside when he died, having gone to Philadelphia several weeks ago. The Philadelphia Times said of the death:

"Samuel H. Rothermel, of the coal firm of Graeff, Rothermel & Co., died this morning at his home in Northwirth, Montgomery county. Mr. Rothermel was 88 years of age. He had been a prominent figure in the coal trade in Philadelphia since the early forties, and was known as an authority on all matters relating to it. He was often heard to say that he had seen the anthracite coal business of Philadelphia grow from 500 tons annually to its present gigantic proportions.

"Mr. Rothermel was born in Berks county. He came to Philadelphia prior to 1840 and in that year ran for sheriff on the Whig ticket. He had not sought the nomination, and treated his defeat with indifference. After that he took no active part in politics and never held office.

"He was a member of the Union league since 1865. In the family there are six brothers, all of whom were over six feet tall. Samuel H. was the last of these six. He was one of the Clay, the members of the guard all being over six feet. Mr. Rothermel married Miss Louisa Abbott, who died five years ago. He leaves five daughters and two sons."

BROUGHT HIM TO TIME.

Foreman Todd's Treatment for Obstinate Jurors.

The struck jury in the case of Matts Holmen returned a verdict of \$2000 for the plaintiff this morning under peculiar circumstances. The jury had been out at 1 o'clock yesterday afternoon and at 3:30 this morning it filed into the court room with the foreman, Judge Englen, looking in the side of the hall, and the jury, who had been out all night and are sorry for the delay.

"How do you stand, without stating which side anyone favors," asked the foreman.

"Eleven to one," replied the foreman. Judge Englen then stated that the jury had returned a verdict of \$2000 for the plaintiff, and that it was to the interest of the county as well as the parties that it be determined. The jury then returned a verdict of \$2000 for the plaintiff.

The jury filed reluctantly back to the jury room with the exception of Foreman Todd, who remained in the court room.

"May I make a request, your honor?" "You may in the presence of the other jurors," replied Judge Englen.

So the jury filed hopefully back into court again.

Foreman Todd ventured Foreman Todd, "I would suggest that the jury have no more refreshments until we are again in session."

"I second the motion," quickly responded another juror.

City Comptroller
CITY OF DULUTH

Duluth, Minn., Feb. 4, 1897.
Notice is hereby given, that I have caused to be filed in the office of the clerk of the district court in and for St. Louis County, Minnesota, a certified statement of delinquent assessments made by the city of Duluth for the purpose of defraying in whole or in part the expense of making the improvements hereinafter mentioned.

Which said statement contains the names of the owners delinquent, a description of the assessments for which said amounts were levied and of the lands affected thereby.

Notice is hereby given that at a general term of said district court to be held at the court house in said county in the city of Duluth on the 3rd day of March, 1897, at 10 o'clock in the forenoon of said day, I will apply to said court for a judgment for the amount of said several assessments and costs against said property.

All persons interested in said lands or said assessments are required to appear at said time and place, and state their objections in writing, if any they have, why said judgment should not be rendered.

The property affected thereby, upon which judgment is asked, is in the city of Duluth, county of St. Louis, and state of Minnesota, and is as follows, to-wit:

W. G. TENIROOK,
